

TC5[®]

TRADE SERIES

MODEL NO. 6101

FEATURES KEYS & BENEFITS

Cut resistant material: adds maximum cut resistance to glove.

Micro-Finished Nitrile-Dipped Palm: adds oil resistance and tactile dexterity.

Non-coated Back: ensures breathability and comfort while in use.

Form-Fitting Construction and Elasticized Cuff: ensures the gloves fit snugly while in use.

Hand-washable and Hang-Dry Ability: allows the glove to be cleaned and reused.

Hazards on job sites with sharp edges and cutting tools range from minor to major lacerations, which may result in the loss of productivity without using correct hand protection.

TC5™ gloves feature Cestus®-exclusive, Cut resistant material that prevents lacerations and abrasions. The micro-finish, Nitrile-dipped palm adds maximum tactile dexterity as well as palm durability. A non-coated, form-fitting back and elasticized cuff ensure the gloves fit snugly while in use, and are breathable.
