

# NSGRIP™

MODEL NO. 6111 BLACK

MODEL NO. 6116 HI-VIS

Working on engines, with small parts, or moving boxes and equipment requires gloves with excellent tactile dexterity.

The NS Grip™ gloves feature a Nitrile-dipped palm with a Latex micro-finish coating that adds tactile grip control for slick or dry surfaces. A non-coated back ensures the gloves are breathable and comfortable, while the form-fitting construction and elasticized cuff ensure the gloves fit snugly while in use.

## FEATURES

- **Nitrile-Dipped Palm** - Synthetic latex material protects from latex allergies and provides tactile dexterity
- **Latex Micro-Finish** - Adds grip control on slick or dry surfaces
- **Form-fitting Construction & Elasticized Cuff** - Ensures snug fit
- **Seamless Construction** - Adds durability and longevity
- **Non-Coated Back** - Ensures breathability and comfort

## USES

- Automotive
- Manufacturing
- Warehouse
- Factory
- Electrician
- Courier
