

TrembleX[®]

MODEL NO. 2011
DESIGN PATENTED

The TrembleX[®] features vibration absorption technology to absorb vibrations before they hit the hand to prevent fatigue or injury. On top of the TrembleX[®]'s synthetic leather palm and is our special memory gel, used to absorb vibration fully through their unique shape and gelatinous material. The memory gel also extends around the forefinger and thumb, adding vibration absorption for all areas that come in contact with tools.

FEATURES
