

WELDTECH

TX

MODEL NO. 7027

The WeldTech™ TX gloves are designed for a variety of tasks, and feature reliable cowhide leather that adds fire and heat resistance for the entire hand and cuff. Gel padding in the palm and fingers absorb vibrations from power and impact tools, while the four-layer one-piece palm gives the glove durability in high-wear areas. Segmented shields provide impact protection, and adjustable long cuff keeps sparks and debris out of the glove.

FEATURES

- **Premium Cowhide Leather** - Provides heat, fire, and cut resistance
- **Flexible TPR (Thermo Plastic Rubber)** - Provides impact protection for work in tight spaces
- **Hexagonal Memory Gel®** - Provides vibration absorption and helps prevent Hand-Arm Vibration Syndrome (HAVS) and carpal tunnel
- **Adjustable Long-Cuff Design** - Ensures sparks and debris stay out of your glove

USES

- Welding
- Metal Fabrication
- Heavy Construction
- Fire Proofing
- Torch Cutting
- Spud Wrench Use
