

# WELDTECH PRO

MODEL NO. 7037

The WeldTech Pro features reliable cowhide leather with added cuff protection where ambient heat is transferred. Premium one-piece, goat-skin leather palm gives the WeldTech Pro superior durability and tactility. Dual-layered rope line adds abrasion protection to a high wear area. Segmented shields provide impact protection. Reflective striping is added for better spatial awareness in low light conditions. Extended long-cuff design ensures sparks and debris stay out of the glove.

## FEATURES

- **Premium Goatskin Leather** - Provides maximum dexterity
- **Flexible TPR (Thermo Plastic Rubber)** - Provides impact protection for work in tight spaces
- **Kevlar® Thread Double-Stitching** - Adds longevity to high-wear areas of the palm
- **High Density Cut-Resistant Base Layer** - Maximizes protection
- **Extended Long-Cuff Design** - Ensures sparks and debris stay out of your glove
- **Reflective Striping** - For spatial awareness in low light

## USES

- Welding
- Metal Fabrication
- Heavy Construction
- Fire Proofing
- Torch Cutting
- Spud Wrench Use
