

How to Search & Purchase a Product on InXave.com

Searching

You can use the search bar in the header of every page to search key words from our site.

If that does not produce any results, try the brand button on our main menu.

Hover over the word brand and a drop-down menu will appear.

Or you can click on the brand name, and it will take you to all ink types listed for that brand.

Hover over the brand you need, and another menu will pop out to the side.

If you still do not see your product, you can contact us at
customerservice@inxave.com.

Include the brand, type, color & quantity of ink you need & we will let you know if
we carry it.

Purchasing

You can press the “Buy Now” button and it will automatically place that product in your cart and take you to your cart.

You will have to navigate back to your product to add more products to your cart.

However, if your product has options that need to be specifically selected then the “Buy Now” button is not the best option.

Select the product itself and it will take you to the product page where you can select the correct options.

Be sure to look at the ink type, quantity, and purchase options.

Purchase options are “one-time purchase” or “subscribe & save”.

If you want to save this product, click on the red heart and your product will be saved to your “Wishlist”.

You can locate your Wishlist in the main menu bar on every page.

Once you have verified all options are correct click the “add to cart” button.

This will also take you directly to your cart and you will have to navigate back to your product to make any additions.

Double check your cart for the correct product, version, and quantity.

If you need to adjust the quantity, use the “+” or “-“ buttons next to the quantity.
