Always wear a properly fitted helmet that complies with CPSC or CE safety standards when you ride your scooter.

Correct Fitting:
Make sure your helmet covers your forehead.

What's In The Box?

Hover-1 Alpha • Charging Cable • Charger + Air Pump
Operation Manual • Quick Start Guide + Stop Card

Charging Your Alpha

Make sure the device is fully charged before the first initial use. The Alpha is fully charged when the light on the charger itself, turns from red to green as shown below.

Operation Of Your Alpha

- 1 Attach the handle bars by placing them into the steering column. Align the front and back screw holes, then tighten the 4 screws securely into place.
- 2 Fully charge your Alpha for up to 5 hours before using it for the first time.
- 3 To fold/unfold your scooter, press the blue button on the release lever, then pull the lever. Raise or lower the steering column and lock into place.
- 4 Before turning on your Alpha, ride it like a normal kick scooter to get comfortable with the device before using it with the motor.
- 5 When comfortable riding the scooter, power it on. **You must first kick off the ground** and then press the throttle **for the motor to start**. A minimum speed of 1.8mph (3 km/h) must be reached before you can use the throttle. To slow down the scooter, press the electric brake.

You must first kick off the ground for the motor to start.
