

# HOVER-1 MATRIX QUICK START GUIDE

## CHARGING THE MATRIX

1

Only use the enclosed charger with your Matrix. Attach the DC input to the bottom of the scooter and the plug into the wall outlet. While charging, the light on the charger itself will be red, indicating that your Matrix is charging. Charging should take around 5 hours. Do not charge for longer than 6 hours.

2

When fully charged, the light on the charger itself will turn green indicating your Matrix is fully charged. Disconnect the charger and remove the plug from the wall.

## HEADLIGHTS / FENDER LIGHTS

The front headlights and fender lights will turn on automatically during riding. They will shut off automatically when the scooter is turned off.

**First-time riders should read the manual thoroughly for riding instructions before using this product.**

## PAIRING/USING THE BLUETOOTH® SPEAKER

1

Turn the Matrix scooter on. It will "Ping" when it turns on to indicate it is in pairing mode.

2

Enable Bluetooth® on your smart device and search for "EU-UK-MAT" to connect to it.

3

Your scooter will say "Paired" when it is paired successfully.

4

Start streaming music using your smart device.

Volume control, media and track controls, must be done on your smart device.

NOTE: The speaker on the scooter is not equipped with a microphone and is not suitable for answering calls.

5

Your scooter will say "Disconnected" when your smart device is out of range or your scooter needs to be charged.

Charge your scooter if necessary.

Repeat steps 1-4 to reconnect your smart phone or tablet.
