HELMETS SAVE LIVES!

Always wear a properly fitted helmet that complies with CPSC or CE safety standards when you ride your bicycle.

Correct Fitting:
Make sure your helmet covers your forehead.

Incorrect Fitting:
Forehead is exposed and vulnerable to serious injury.
PLEASE READ THE USER MANUAL THOROUGHLY.
Failure to follow the basic instructions and safety precautions listed in the user manual can lead to damage to your Ultra, other property damage, serious bodily injury, and even death.

Thank you for purchasing the Hover-1 Ultra Electric Scooter. Please read all instructions carefully before using and retain this manual for future use and reference.

This manual applies to the Hover-1 Ultra Electric Scooter.

• In order to avoid dangers that are caused by collisions, falls, and loss of control, please learn how to ride the Hover-1 Ultra safely.

• You can learn operating skills by reading the product manual and watching videos.

• This manual includes all operating instructions and precautions, and users must read it carefully and follow the instructions.

• Hover-1 can not be held liable for damage or injury caused by failure to understand and follow the warnings and instructions in this manual.

ATTENTION
1. Use only the supplied charger with this scooter.
Charger Manufacturer: Guang Zhou Ji Yin Heng Ba Electronics Co., Ltd.
Model: JY-420150

2. The operating temperature range of the charger is 50° F-77° F (10-25° C).

3. The operating temperature range of the Hover-1 Ultra is 32-113° F (0-45° C).

4. Do not ride on icy or slippery surfaces.

5. Read the user manual and warning labels before riding.

6. Store the Hover-1 Ultra in a dry, ventilated environment.

7. When transporting the Hover-1 Ultra, avoid violent crashes or impact.
LOW TEMPERATURE WARNING
Low temperature will affect the lubrication of moving parts inside
the Ultra scooter, increasing internal resistance. At the same time, in
low temperatures, the discharge capacity and the capacity itself
of the battery will be significantly decreased.

Use caution when riding the Ultra in cold temperatures (below 40
degrees F).

Doing so may increase the risk of mechanical failures of the
scooter, which may lead to damage to your Ultra, other property
damage, serious bodily injury and even death.

SAFETY INSTRUCTIONS
• Keep the Ultra away from heat sources, direct sunlight, humidity,
  water and any other liquids.
• Do not operate the Ultra if it has been exposed to water, moisture
  or any other liquids to prevent against electric shock, explosion
  and/or injury to yourself and damage to the Ultra.
• Do not use the Ultra if it has been dropped or damaged in any way.
• Repairs to electrical equipment should only be performed by
  the manufacturer. Improper repairs voids the warranty and may
  place the user at serious risk.
• Do not puncture or harm the exterior surface of the product in
  any way.
• Keep the Ultra free from dust, lint, etc.
• Do not use this Ultra for anything other than its intended use or
  purpose. Doing so may damage the Ultra or lead to property
  damage, injury or death.
• This product is not a toy. Keep out of reach of children.
• Do not expose batteries, battery pack, or batteries installed to
  excessive heat, such as direct sunlight, or open flame.
• Do not allow hands, feet, hair, body parts, clothing or similar
  articles to come in contact with moving parts, wheels or drivetrain,
  while the engine is running.
• Do not operate, or allow others to operate, the Hover-1, until the user understands all instructions, warnings and safety features described in this manual.

• Check with your doctor if you have a medical condition that could affect your ability to use the Ultra.

• Persons with head, back or neck ailments or prior surgeries to those areas of the body are not recommended to use this Ultra.

• Persons with any mental or physical conditions that may make them susceptible to injury or impair their physical or mental capabilities to recognize, understand and perform all of the safety instructions and to be able to assume the hazards inherent in unit use, should not use the Hover-1 Ultra.

**NOTES:**

In this manual, the above symbol with the word “NOTES” indicates instructions or relevant facts the user should remember prior to using the Ultra.

**CAUTION!**

In this manual, the above symbol with the word “CAUTION” indicates a hazardous situation which, if not avoided, can cause minor or moderate injury.

**WARNING!**

In this manual, the above symbol with the word “WARNING” indicates a hazardous situation which, if not avoided, can cause death or serious injury.

**SERIAL NUMBER**

Please keep the serial number on file for warranty claims as well as proof of purchase.
The Ultra is a personal transporter. Our technology and production processes are developed with strict testing for each Ultra scooter. Operating the Ultra without following the contents of this manual may lead to damage to your Ultra or bodily injury.

This manual is designed to give you the information you need for the safe operation and maintenance of your Ultra. Please read it thoroughly before riding your Ultra.

**PACKAGE CONTENTS**
- Hover-1 Ultra Electric Scooter
- 3-pin Charge Cable
- Operation Manual

**FEATURES/PARTS**
1. Fender  
2. Right Foot Mat  
3. Battery Indicator  
4. System Indicator  
5. Left Foot Mat  
6. Tire  
7. LED Light  
8. Power Button (Located in rear)  
9. Charge Port (Located in rear)  
10. Protective Chassis Casing
OPERATING PRINCIPALS
The Ultra uses digital electronic gyroscopes and acceleration sensors to control balance and motion, depending on the user’s center of gravity. The Ultra also uses a control system to drive the motors that are located within the wheels. The Ultra has a built-in inertia dynamic stabilization system that can help assist with balance when moving forward and backwards, but not while turning.

TIP – To increase your stability, you must shift your weight in order to overcome the centrifugal force during turns, especially when entering a turn at higher speeds.

WARNING
Any Ultra that does not work properly can cause you to lose control and fall. Inspect the entire Ultra thoroughly before every ride, and do not ride it until any problems have been corrected.

SPECIFICATIONS
Model: HY-RM-ULTRA
Net Weight: 22.49 lbs (10.2kg)
Load: 44-220 lbs (20-100 kg)
Max Speed: Up to 10 mph (16.1 km/h)
Max Distance Range: Up to 12 miles (19.3 km)
Max Incline Angle: 17°
Minimum Turning Radius: 0°
Battery Type: Lithium-ion
Battery Voltage: 36 V
Battery Capacity: 4.0 Ah
Power Requirement: AC 100-240V, 50-60 Hz
Ground Clearance: 1.5 Inches (3.81 cm)
Platform Height: 4.5 Inches (11.43 cm)
Tire Type: Non-Pneumatic Solid Tires
TURNING YOUR DEVICE ON/OFF
Power On: Take your Ultra out of the box and place it flat on the floor. Press the power button (located on the rear of your Ultra) once. Check the LED indicator (located in the center of your Ultra). The battery indicator light should be lit, indicating the Ultra is powered on.

Power Off: Press the power button once.

MAT SENSOR
There are four sensors under the foot mats on your Ultra. When the user steps off the scooter mats, it will automatically initiate self-calibration. When riding the scooter, you must ensure you are stepping on the foot mats. Do not step or stand on any other area of your scooter.

Do not put items on the foot mats. Doing so will make the Ultra turn on, and increase the probability of collision and cause injury to people, riders, or damage the Ultra.

The Ultra may vibrate or spin in one direction, if weight and pressure are applied to only one foot mat.

BATTERY INDICATOR
The display board is located in the middle of the Ultra.

• Green LED light indicates the Ultra is above 50 percent.
• Red LED light indicates the power is down to 20 percent or lower.

When the LED light turns red, please recharge the Ultra.

RUNNING INDICATOR
When the operator triggers the foot mats, the Running Indicator LED will light up, which means that the system enters the running state.

When the system has an error during operation, the running LED light will turn red (for more details see SAFETY ALERTS).
It is important that you fully understand all elements of your Ultra. If these elements are not used correctly, you will not have full control of your Ultra. Before you ride, learn the functions of the various mechanisms on your scooter.

Practice using these elements of your Ultra at slower speeds in a flat, open area before taking the Ultra out in public areas.

PRE-RIDE CHECKLIST
Ensure that your Ultra is in proper working order each and every time you ride. If a part of the scooter does not function correctly, please contact our Customer Support Center.

- Ensure the battery is fully charged before riding your scooter.
- Ensure that the screws on the front and back tires are locked firmly before each ride.
- Please wear all appropriate safety and protective gear as previously mentioned in the User Manual before operating your Ultra.
- Make sure to wear comfortable clothes and flat closed-toe shoes when operating your Ultra.
- Please carefully read the User Manual, which will assist in explaining the basic working principles and provide tips on how to best enjoy your experience.

WARNING
Any Ultra that does not work properly can cause you to lose control and fall. Do not ride a Ultra with a part that is damaged; replace the damaged part before riding.
The first rule in safe riding is to use common sense.

Different localities and countries have different laws governing riding on public roads, and you should check with local officials to ensure you are complying with these laws.

Hover-1 is not liable for tickets or violations given to riders who do not follow local laws and regulations.

• For your safety, always wear a helmet that meets CPSC or CE safety standards. In the event of an accident, a helmet can protect you from serious injury and in some cases, even death.

• Obey all local traffic laws. Obey red and green lights, one-way streets, stop signs, pedestrian crosswalks, etc.

• Ride with traffic, not against it.

• Ride defensively; expect the unexpected.

• Give pedestrians the right-of-way.

• Do not ride too close to pedestrians and alert them if you intend to pass them from behind.

• Slow down at all street intersections and look to the left and right before crossing.

Your Ultra is not equipped with reflectors. It is not recommended that you ride in conditions of low visibility.

⚠️ WARNING

When you ride in low-visibility conditions such as fog, dusk, or night, you might be difficult to see, which could lead to a collision. In addition to keeping your headlight on, wear bright, reflective clothing when riding in poor lighting conditions.
Think about safety when you ride.

**SAFETY CHECKLIST**

- Do not ride above your skill level. Ensure you have had enough practice with all functions and features of your Ultra.

- Do not ride too fast -- with increased speed comes increased risk. If you are moving at a higher speed, small bumps can turn into large impacts, leading to a higher risk of injury if an accident occurs.

- Do not ride with pets.

- Before stepping on your Ultra, make sure it is placed flat on level ground, the power is on, and the Running Indicator light is green. Do not step on if the Running Indicator light is red.

- Do not try to open or modify your Ultra. Doing so, voids the manufacturer warranty and may cause your Ultra to fail, resulting in injury or death.

- Do not use the Ultra in a manner that would put people or property in danger.

- If you and your friend(s) are riding Ultras together, be sure to keep a safe distance between each other to prevent collisions, property damage, serious injuries or even death.

- Be sure to keep your feet on the pedals at all times. Moving your feet off your Ultra while driving is dangerous and may cause the Ultra to stop or veer sideways.

- Do not operate the Ultra while under the influence of drugs and/or alcohol.

- Do not operate the Ultra when you are restless or sleepy.

- Use your best judgment to keep yourself out of dangerous situations with your Ultra.

- Do not ride your Ultra off of curbs, ramps, or attempt to operate in a skate park, empty pool, or in any way similar to a skateboard or scooter. The Ultra IS NOT A SKATEBOARD. Misuse of your Ultra, voids the manufacturer warranty and may lead to injury or damage.

- Do not continuously spin in place, it will cause dizziness and increases risk of injury.
• Do not abuse your Ultra, doing so can damage your unit and cause failure to the operating system leading to injury. Physical abuse, including dropping your Ultra, voids the manufacturer warranty.

• Do not operate in or near puddles of water, mud, sand, stones, gravel, debris or near rough and rugged terrain.

• The Ultra can be used on paved surfaces that are flat and even. If you encounter uneven pavement, please lift your Ultra over and past the obstruction.

• Do not ride in inclement weather: snow, rain, hail, sleek, on icy roads or in extreme heat or cold.

• Bend your knees when riding on bumpy or uneven pavement to absorb the shock and vibration and help you keep your balance.

• If you are unsure if you can safely ride on a specific terrain, step off and carry your Ultra. ALWAYS BE ON THE SIDE OF CAUTION.

• Do not attempt to ride over bumps or objects greater then ½ in. even when prepared and bending your knees.

• PAY ATTENTION - look at where you are riding and be conscious of the road conditions, people, places, property and objects around you.

• Do not operate the Ultra in crowded areas.

• Operate your Ultra with extreme caution when indoors, especially around people, property, and narrow spaces.

• Do not operate the Ultra while talking, texting, or looking at your phone.

• Do not ride your Ultra where it is not permitted.

• Do not ride your Ultra near motor vehicles or on public roads.

• Do not travel up or down steep hills.

• The Ultra is intended for use by a single individual, DO NOT attempt to operate the Ultra with two or more people.

• Do not carry anything while riding the Ultra.

• Individuals with lack of balance should not attempt to operate the Ultra.
• Pregnant women should not operate the Ultra.

• Young children and the elderly should not operate the Ultra.

• At higher speeds, always take into consideration longer stopping distances.

• Do not step forward off of your Ultra.

• Do not attempt to jump on or off your Ultra.

• Do not attempt any stunts or tricks with your Ultra.

• Do not ride the Ultra in dark or poorly lit areas.

• Do not ride the Ultra near or over potholes, cracks or uneven pavement or surfaces.

• Do not operate your Ultra off-road.

• Keep in mind that you are 4.5 inches (11.43 cm) taller when operating the Ultra. Make sure to go through doorways safely.

• Do not turn sharply, especially at high speeds.

• Do not exceed the maximum or minimum weight limits.

• Do not step on the fenders of the Ultra.

• Avoid driving the Ultra in unsafe places, including near areas with flammable gas, steam, liquid, dust or fiber, which could cause fire and explosion accidents.
FAILURE TO FOLLOW ANY OF THE FOLLOWING SAFETY PRECAUTIONS CAN AND MAY LEAD TO DAMAGE TO YOUR ULTRA, VOID YOUR MANUFACTURER WARRANTY, LEAD TO PROPERTY DAMAGE, CAUSE SERIOUS BODILY INJURY, AND CAN LEAD TO DEATH.

Before using your Ultra, be sure to familiarize yourself with the operating procedures.

OPERATING YOUR ULTRA
Make sure the Ultra is fully charged before initial use. For charging instructions, please follow details under CHARGING YOUR ULTRA.

Stand directly behind your Ultra and place one foot on the corresponding foot mat (as described in the diagram below). Keep your weight on the foot which is still on the ground, otherwise the Ultra may begin to move or vibrate, making it difficult to step on evenly with your other foot. When you are ready, shift your weight to the foot already placed on the Ultra and step on with your second foot quickly and evenly (as described in the diagram below).

Find your center of gravity. If your weight is distributed correctly on the foot mats and your center of gravity is level, you should be able to stand on your Ultra just as if you were standing on the ground.

On average, it takes 3-5 minutes just to get comfortable standing on your Ultra and maintaining proper balance. Having a spotter will help
you feel more secure. The Ultra is an incredibly intuitive device; it senses even the slightest bit of motion, so having any anxiety or reservation about stepping on may cause you to panic and trigger unwanted movement.

When you first begin using your Ultra, the fastest way to move in your desired direction is to focus in that direction. You will notice that just thinking about which way you would like to go will shift your center of gravity, and that subtle movement will propel you in that direction.

Your center of gravity determines which direction you move, accelerate, decelerate, and come to a complete stop. As described in the diagram below, tilt your center of gravity in the direction you wish to move.

To turn, focus on the direction you wish to turn and stay relaxed.

![Diagram showing the center of gravity]

**WARNING**

Do not turn sharply or at high speeds to avoid danger. Do not turn or ride quickly along slopes, as it may cause injury.

As you get comfortable on the Ultra, you will notice it becomes easier to maneuver. Remember at higher speeds, it is necessary to shift your weight to overcome the centrifugal force.

Bend your knees if you encounter bumps or uneven surfaces, then dismount and carry your Ultra to a safe operating surface.
FAILURE TO FOLLOW ANY OF THE FOLLOWING SAFETY PRECAUTIONS CAN AND MAY LEAD TO DAMAGE TO YOUR ULTRA, VOID YOUR MANUFACTURER WARRANTY, LEAD TO PROPERTY DAMAGE, CAUSE SERIOUS BODILY INJURY, AND CAN LEAD TO DEATH. Before using your Ultra, be sure to familiarize yourself with the operating procedures.

OPERATING YOUR ULTRA
Make sure the Ultra is fully charged before initial use. For charging instructions, please follow details under CHARGING YOUR ULTRA. Stand directly behind your Ultra and place one foot on the corresponding foot mat (as described in the diagram below). Keep your weight on the foot which is still on the ground, otherwise the Ultra may begin to move or vibrate, making it difficult to step on evenly with your other foot. When you are ready, shift your weight to the foot already placed on the Ultra and step on with your second foot quickly and evenly (as described in the diagram below).

Find your center of gravity. If your weight is distributed correctly on the foot mats and your center of gravity is level, you should be able to stand on your Ultra just as if you were standing on the ground. On average, it takes 3-5 minutes just to get comfortable standing on your Ultra and maintaining proper balance. Having a spotter will help.

WARNING
Make sure to lift your feet completely off the foot mat to clear the Ultra when stepping back to dismount. Failure to do so may send the Ultra into a tailspin.

NOTES:
Try staying relaxed and focus on finding your center of gravity to maintain full control of your Ultra.

Dismounting your Ultra can be one of the easiest steps, yet when done incorrectly, may cause you to fall. To properly dismount, from a stopped position, lift one leg up and set your foot back down on the ground (STEPPING BACK). Then step off completely as described in the following diagram.

WEIGHT AND SPEED LIMITATIONS
Speed and weight limits are set for your own safety. Please do not exceed the limits listed here in the manual.

• Maximum Weight: 220 lbs
• Minimum Weight: 44 lbs
• Maximum Speed: Up to 10 mph
FAILURE TO FOLLOW ANY OF THE FOLLOWING SAFETY PRECAUTIONS CAN AND MAY LEAD TO DAMAGE TO YOUR ULTRA, VOID YOUR MANUFACTURER WARRANTY, LEAD TO PROPERTY DAMAGE, CAUSE SERIOUS BODILY INJURY, AND CAN LEAD TO DEATH.

Weight and Speed Limitations
Speed and weight limits are set for your own safety. Please do not exceed the limits listed here in the manual.

• Maximum Weight: 220 lbs
• Minimum Weight: 44 lbs
• Maximum Speed: Up to 10 mph

Operating Range
The Ultra can travel a distance up to 12 miles on a fully charged battery in ideal conditions. The following are some of the major factors that will affect the operating range of your Ultra.

• Terrain: Riding distance is highest when riding on a smooth, flat surface. Riding uphill and/or on rough terrain will reduce distance significantly.
• Weight: A lighter user will have further range than a heavier user.
• Ambient temperature: Please ride and store the Ultra under recommended temperatures, which will increase riding distance, battery life, and overall performance of your Ultra.
• Speed and Riding Style: Maintaining a moderate and consistent speed while riding produces maximum distance. Traveling at high speeds for extended periods, frequent starts and stops, idling and frequent acceleration or deceleration will decrease overall distance.

Balance & Calibration
If your Ultra is unbalanced, vibrating, or not turning properly, you can follow the below steps to calibrate it.

• In order for the balance calibration system to work properly, please place the scooter on a flat, horizontal surface.
• Press and hold the ON/OFF button for a total of 15 seconds. The scooter will turn on, lighting the battery indicator on the board.
• After the light flashes 5 times consecutively you may release the ON/OFF button.
• Turn the board off and then turn the board back on. Calibration will now be completed.
SAFETY ALERTS

While riding your Ultra, if there is a system error or improper operation performed, the Ultra will prompt the user in a variety of ways.

You will notice the Running Indicator Light will turn RED and you will hear a beep sound alerting you to take precaution and cease operation, which may make the device stop suddenly.

The following are common occurrences where you will hear the Safety Alerts. These notices should not be ignored, but appropriate action should be taken to correct any illegal operation, failure or errors.

• Unsafe riding surfaces (uneven, too steep, unsafe, etc.)

• When you step on the Ultra, if the platform is tilted more than 17 degrees forward or backward.

• Battery voltage is too low.

• The Ultra is still charging.

• During operation, the platform self initiates to tilt due to excess speed.

• Overheating, or motor temperature is too high.

• The Ultra has been rocking back and forth for over 30 seconds.

• If the system enters protection mode, the alarm indicator will light up and the board will vibrate. This typically occurs when the battery is about to run out of power.

• If the platform is tilted forward or backward more than 17 degrees, Ultra will power off and stop suddenly, possibly causing the rider to lose balance or fall off.

• If any or both tires are blocked, the Ultra will stop after 2 seconds.

• When the battery level has depleted below protection mode, the Ultra engine will power off and stop after 15 seconds.
• While sustaining a high discharge current during use (such as driving up a steep slope for a long period of time), the Ultra engine will power off and stop after 15 seconds.

**WARNING**

When the Ultra turns off during a Safety Alert, all operation systems will halt. Do not continue attempting to ride the Ultra when the system initiates a stop. Turn your Ultra off and back on to unlock it from a Safety Lock.

---

**CHARGING YOUR ULTRA**

**CHARGING THE ULTRA**

• Ensure that the charging port is clean and dry.
• Make sure that there is no dust, debris or dirt inside the port.
• Plug the charger into a grounded wall outlet.
• Connect the cable with the power supply (100V ~ 240V; 50, 60 Hz).
• Align and connect the 3-pin charging cable into the charging port of the Ultra. DO NOT FORCE THE CHARGER INTO THE CHARGE PORT, AS THIS MAY CAUSE THE PRONGS TO BREAK OFF OR PERMANENT DAMAGE TO THE CHARGE PORT.
• The charging indicator light should change to RED, indicating that your Ultra is now being charged.
• When the RED indicator light on your charger turns to GREEN, then your Ultra is fully charged.
• A full charge may take up to 4 hours.
• After fully charging your Ultra, unplug the charger from your Ultra and from the power outlet.
BATTERY SPECIFICATIONS
Battery Type: Rechargeable lithium-ion battery
Charge Time: Up to 4 hours
Voltage: 36V
Initial Capacity: 4.0 AH
Working Temperature: 32°F - 113°F
Charging Temperature: 50°F - 77°F
Storage Time: 1 year
Storage Temperature: -4°F - 77°F
Storage Humidity: 5% - 95%

BATTERY MAINTENANCE
The lithium-ion battery is built into the Ultra. Do not disassemble the Ultra to remove the battery or attempt to separate it from the Ultra.

• Use only the charger and charging cable supplied by Hover-1. Use of any other charger or cable may lead to damage to the product, overheating and risk of fire. Use of any other charger or cable voids the manufacturer warranty.

• Do not connect or attach the Ultra or the battery to a power supply plug or directly to a car’s cigarette lighter.

• Do not place the Ultra or batteries near a fire, or into direct sunlight. Heating the Ultra and/or the battery can cause additional heating, breaking, or ignition of the battery inside the Ultra.

• Do not continue charging the battery if it does not recharge within the specified charging time. Doing so may cause the battery to become hot, rupture, or ignite.

To preserve natural resources, please recycle or dispose of batteries properly. This product contains lithium-ion batteries. Local, state, or federal laws may prohibit disposal of lithium-ion batteries in ordinary trash. Consult your local waste authority for information regarding available recycling and/or disposal options.

• Do not attempt to modify, change, or replace your battery.

⚠️ WARNING
Failure to follow the safety precautions listed below could lead to serious bodily injury and/or death.
• Use only the charger and charging cable supplied by Hover-1. Use of any other charger or cable may lead to damage to the product, overheating and risk of fire. Use of any other charger or cable voids the manufacturer warranty.

• Do not use your Ultra if the battery begins to emit odor, overheats, or begins to leak.

• Do not touch any leaking materials or breathe fumes emitted.

• Do not allow children and animals to touch the battery.

• The battery contains dangerous substances, do not open the battery, or insert anything into the battery.

• Please only use the charger provided by Hover-1.

• Do not attempt to charge the Ultra if the battery has discharge or emits any substances. In that case, immediately distance yourself from the battery in case of fire or explosion.

• Lithium-ion batteries are considered to be hazardous materials. Please follow all local, state and federal laws in regards to recycling, handling and disposing of Lithium-ion batteries.

⚠️ WARNING ⚠️

SEEK IMMEDIATE MEDICAL ASSISTANCE IF YOU ARE EXPOSED TO ANY SUBSTANCE THAT IS EMITTED FROM THE BATTERY.
This Ultra complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This Ultra may not cause harmful interference, and (2) this Ultra must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FCC INSTRUCTIONS FOR A CLASS B DIGITAL Ultra OR PERIPHERAL

Note: This equipment has been tested and found to comply with the limits for a Class B digital Ultra, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
CARE & MAINTENANCE

• Do not expose the Ultra to liquid, moisture, or humidity to avoid damage to the product's internal circuitry.

• Do not use abrasive cleaning solvents to clean the Ultra.

• Do not expose the Ultra to extremely high or low temperatures as this will shorten the life of the electronic Ultra, destroy the battery, and/or distort certain plastic parts.

• Do not dispose of the Ultra in fire as it may explode or combust.

• Do not expose the Ultra to contact with sharp objects as this will cause scratches and damage.

• Do not allow the Ultra fall from high places, as doing so may damage the internal circuitry.

• Do not attempt to disassemble the Ultra.

• Use only the charger provided by Hover-1.

⚠️ WARNING
Avoid using water or other liquids for cleaning. If water or other liquids enter the Ultra, it will cause permanent damage to the internal components.

⚠️ WARNING
Users who disassemble the Ultra scooter without permission will void the warranty.
Ultra is a two-wheel balancing electric scooter. It provides a convenient, stable form of transportation, responsive to weight and angles, making it easier and safer to control, allowing you to travel up to 12 miles at up to 10 mph.

**DESIGN**

Ultra is designed to be easily controlled, providing a safe stable form of travel. With a zero degree turning radius, you can operate Ultra in narrow spaces without moving forward at all. The built-in sensors are responsive with a balancing system. Accelerate or decelerate simply by applying pressure with your feet or by leaning. Two driver motors are controlled independently or with both feet for easy turns, rotations and smooth breaking. The Ultra only requires 4 hours of charging for a full charge.

**PERFORMANCE**

Ultra is a two-wheel balancing electric scooter. It provides a convenient, stable form of transportation, responsive to weight and angles, making it easier and safer to control, allowing you to travel up to 12 miles at up to 10 mph.

- TRAVEL UP TO 12 MILES
- MAXIMUM SPEED OF UP TO 10 MPH
- SUPPORTS UP TO 220 LBS
- FULLY CHARGES IN UP TO 4 HOURS
