

Hydro Force®

POWER WASH GUN

Combines compressed air, and standard municipal utility water to form a turbulent air/water jet stream.

Perfect for heavy duty cleaning!

NO Power Package, NO Pressure Unit, NO Electricity, NO Gasoline Required

- One trigger operation
- Hot or cold water capable
- No duty-cycle limitations
- Virtually no maintenance required
- Lightweight and fully portable
- Rugged, all metal construction
- Meets or exceeds OSHA standards

Ideal for Cleaning:

- Floors and Walls
- Construction Equipment
- Heavy Machinery
- Shipboard and Marine Equipment
- Roadway Surfaces
- Tanks and Storage Areas

HydroForce® POWER WASH GUN

Operating Specifications

Inlet Air Pressure (psig)*	Inlet Water Pressure (psig)**	Air Consumption (scfm)	Water Consumption (gpm)	Thrust (lbf)	Noise (dBA)
100	75	140	3.4	13.5	99

*Standard plant air or 185 scfm tow-behind compressor
**Standard municipal utility water (garden hose)

Parts and Accessories

Description	Part Number
HydroForce with 48" Extension	HYD048SSA
5' Air/Water Hose Assembly (Pigtail)	510A20
Shoulder Strap	510A01
Safety Tip Nozzle	510N02
48" Stainless Extension and Safety Tip Nozzle	510E048SSA
3/4" NPT Chicago Swivel Coupler	34KSAKM05
Shuttle Valve Maintenance Kit	510K01
Handle Valve Maintenance Kit	500K01
