Front Panel standard

Centre line:
An optional Ambient FlowLight element that runs in the centre of canopy

Front Panel with Brandshield and Ambient FlowLight (standard for X$_5$ 38 SLi)

AirCo

The Luxura air-conditioning system ensures a pleasant temperature as you lie back on the ergonomically shaped reclining surface. A wonderful refreshing breeze – adjustable at different levels – gently touches body and face.

Q SENS

Naturally refreshing. A wonderful, gentle mist is sprayed across the body at intervals.

X SENS

Wellness tanning for all the senses. Whenever a pleasant atmosphere in the tanning tunnel is desired, Xsens will distribute a wonderful scent throughout the interior of the Luxura. It's like a breath of fresh air in the fragrances Ocean, Blossom or Sandelwood. Choose between Xsens I (one fragrance for your Luxura) and Xsens III (three fragrances).

IP Control

This Intelligent Power Control System guarantees, during the entire lifecycle of the tubes, an optimal output of 0,3 W/m2 in conformance with the EU regulation. IP Control achieves a tube lifecycle of 1500 hours! Energy consumption of the tubes will reduce up to 25%.

Bluetooth

The smart Bluetooth system allows tanners to easily connect their own smartphone or small tablet to the sound system for great audio experiences. This way they can instantly play their own music while tanning. No cables needed - simply play & tan.

sound around PLUS

Sound Around Plus includes My MP3, SmartVoice, Bluetooth, 4 external music channels, 4 loudspeakers, subwoofer and SD cards providing two extra internal music channels (relax music, energetic music or program your own music).

my MP3

In addition to the four optional music channels from the SoundAround package, the user may plug in his own MP3 player, in order to enjoy his own favourite sounds.

smart VOICE

A friendly voice will guide the user acoustically through the different functions. It will describe all possibilities, turning the tanning session into a veritable miniature holiday.

SLi⁺

This facial tanner, with a single socket mounting, has a specially developed tanner-reflector combination, which ensures first-class tanning results (for X_{10} only).

HPS

High Power System: a special filter for the SLi facial tanner. For more efficiency, direct pigmentation, and a visual mirror effect.

BPS

Balanced Power System: a special filter for the SLi facial tanner. For more efficiency, direct pigmentation, and a visual mirror effect. Especially developed for EU-type III and 0,3.

XL LIGHT

The XL tubes, which have a length of two metres, ensure an even, all-over tan.

ambient flow LIGHT

The fading colour flow with a nearly inexhaustible range of colours provides an extra sense of atmosphere.

ecoPOWER

The electronic ballasts - integrated as standard - ensure energy savings of at least 25% (for X_3 only).

contour PLUS

Feel the comfort of the ergonomically formed surface, which follows the body shape.
