

Conway Stewart

TRADITIONAL Conway Stewart Barrel Engraving – what do the numbers mean?

---

Conway Stewart used 2 different formats for the numbers engraved on the barrel.

1. If it was a Limited Edition pen, then the number was the Edition Number ie 10/300 means this was the 10<sup>th</sup> pen made in a limited edition of 300 pens.
2. However, much more commonly used was the format in the above photo which shows a strange number 058/001. The first number is the colour reference of the pen and the second number was the serial number. In this example 058 = Classic Black and 001 = this is the first pen made in that colour in that range.

**See the list on the next page to identify the colour numbers.**

To help you identify the colour on your modern Conway Stewart pen, below is a list of the iconic Conway Stewart colours with their corresponding numbers.

- AMBER 605
- AMETHYST 621
