

## Growing With Grammar Version 2 Update

As of July 1, 2014 JacKris Publishing converted Levels 1 through 7 of Growing With Grammar with updated versions. **Level 8 was not updated and therefore was not affected.**

Before July 1, 2014 all versions of Growing With Grammar were "Version 1." You can tell this by visiting the very first page of each book. About midway down on the page you will see "Ver. 1.\_ \_" (the underscores could be any numbers). Version 2 Answer Keys have "Ver. 2" at the bottom of the first page.

The new updated books are version 2. Therefore, you will see "Ver. 2.\_ \_" on the first page of these books.

**This is the only way you will be able to visually distinguish between version 1 and version 2 books.**

All book covers for Growing With Grammar will remain unchanged.

As noted, the above version change only affected Growing With Grammar and in no way affects Soaring with Spelling and Vocabulary, Winning With Writing, Starting Line Stories, or Digging Into Diagramming.

**Please note that due to the changes, any version 1 books will not match up completely with the new version 2 books.** Levels 1 through 7 have now been updated to Version 2. **Version 1 materials are no longer available.** The content in version 1 and version 2 books do not match up completely; therefore, some users will find it difficult to mix and match them. Changes in some levels were greater than in other levels. Nevertheless, we have been informed that some of our users have successfully utilized version 1 Student Manuals with version 2 workbooks with at least some success. Please e-mail us with any questions.
