

Nordic SKI Product Safety, Warranty and Assembly Information

Welcome to KidRunner Nordic SKI – an extension of KidRunner RUN and our original dream of feeling great in motion with kids.

We're parents, too. Safety is where we start. All KidRunner products go through extensive lab and field testing to ensure safety and performance in various conditions. KidRunner SKI is purposefully designed for specific activities—**Nordic Classic and Skate Skiing only**. Users should not use it outside of what it is designed and tested for. We discourage any use outside the scope of Nordic Skiing and can't guarantee any performance or safety attributes of the product beyond **Nordic Classic and Skate Skiing**.

Sports are inherently risky; especially with kids. KidRunner parents need to be mindful of the use-profile and capabilities of KidRunner SKI. If you notice any problems with parts, including loose or broken components, or if you have any other questions or concerns, please stop and contact us for product support.

Other warranty, assembly and performance tuning information is found on our website www.KidRunners.com. We're always here to help ensure your family's safety and enjoyment.

Feel free to reach out anytime. Your positive experience and safety are our top priorities.
