Limited Warranty

Congratulations. You have just purchased one of the finest sleep systems available, backed up by one of the finest warranties available. At Sealy, we make the mattress that makes you more comfortable, and that includes replacing or repairing any sleep set that fails to live up to our high standards for quality materials and workmanship. Please take a few minutes to read over the warranty guidelines below.

Length of Warranty

Your warranty protects you from the day you purchase your sleep set, and continues according to the “Warranty Schedule” found on this card. In the event that we repair or replace your mattress and/or boxspring, this warranty continues your protection from the original date of purchase.

Warranty Coverage

This warranty covers the following items during normal wear:

Mattress:

- Torn handles, stitches pulled out of the handle where sewn to the mattress, or tears in the mattress fabric where the handles are attached.
- Coils or wires that are loose or broken.
- Coils or wires that protrude or rip through the fabric.
- Body indentations of 1½" or greater.
- **Your mattress must be continuously supported by a Sealy appropriate boxspring, or equivalent, with an appropriate frame.** The frame should include a rigid center support with at least 5 legs or a rigid center support with at least 5 hardwood cross slats for queen and king sets. (See illustration for clarification.)
A rigid center support is equal to a support that extends from the frame to the ground.

Boxspring:

- Splits in the wood frame.
- Squeaks, rattles or noises.
- Broken, loose or defective beams and/or center support rail.
- Loose or broken module wire.
- Compression of modules.
- Unstapling of modules.
- Sagging: A proper bed frame must continuously support the boxspring. For king and queen sets, a rigid center support with at least 5 legs or a rigid center support with at least 5 hardwood cross slats is necessary. (See illustration for clarification.)

Items Not covered

Items and damages not specifically listed in the “Warranty Coverage” section are not covered, including, for example:

- Mattress Fabric (covers, including stains, soiling or burns).
- Border wires, which run along the perimeter of the mattress and foundation, bent due to moving or bending the sleep set.
- Structural damage from using an improper bed frame. This warranty applies to queen and king size mattresses or boxsprings ONLY if they are used on an appropriate frame with a rigid center support having at least 5 legs or a rigid center support with 5 hardwood cross-slats.
- Used bedding or bedding sold “as is” and floor models.
- Bed height.
- Comfort preference.
- Body indentations less than 1½".
- Mattress damage due to an inappropriate boxspring. A mattress is designed for full performance when used in conjunction with a Sealy appropriate boxspring as part of a total sleep set.
- Replacement of another piece in the sleep set, unless such other piece is also defective.
- Mattress or boxspring damage due to abuse.
- Transportation costs.
- Damage incurred by transportation or delivery.
- Sheet fit.

Examples of Proper Bed Frames for Queen and King Size Bedding

Add a solid platform on top of any open slatted mattress support system with openings between the slats that exceed 2 inches (i.e. a platform bed frame) – without the solid platform your warranty will be invalid.

Body indentation can be a normal occurrence in your new mattress, and indicate that the upholstery layers are conforming to your body's individual contours. Do not attempt to sleep on the boxspring or the non-sleep surface of the mattress as they are not made for that purpose.

We make every effort to be sure we manufacture our sleep sets with the finest materials available. If, however, you do discover a defect in your new Sealy mattress or boxspring, simply contact the retail store where you purchased your sleep set and they will contact us. If you can't reach the store, all you need to do is write directly to us at:

Sealy Canada Ltd./Ltée, 145 Milner Ave., Scarborough ON, M1S 3R1, CANADA

If a defect that is covered occurs during the warranty period (which is described in the warranty schedule), Sealy will repair or replace (at Sealy's option) the defective mattress and/or boxspring within a reasonable period of time.

In order for this limited warranty to be valid, you must: 1. Be the original consumer purchaser, and have purchased the sleep set from one of our authorized dealers in Canada, the United States, Mexico or Puerto Rico; 2. Provide a copy of the original store receipt, or other proof of date, place of purchase and purchase price and 3. Provide the law label from the defective product.

If identical materials are not available at the time of product service, Sealy reserves the right to substitute material of equal or higher value, or, at our option, provide a refund. You'll be responsible for transportation costs of the product to and from the store or factory, as applicable.

Your warranty does not cover products found to be in an unsanitary condition or when the product failure is due to causes other than defective materials or workmanship. Please refer to the "Do's & Don'ts of Bedding Care" section of this brochure for proper sleep set care.

Do's & Don'ts of Bedding Care

DO

DO give your new sleep set time to “air” upon removal from its plastic packaging. Dispose of all plastic packaging as soon as possible.

DO carry your mattress flat on its side. It's easier to handle and you'll be less likely to damage the mattress.

DO keep your bedding clean. We suggest using a mattress pad, especially if children use the bed.

DO replace the old boxspring when purchasing a new mattress. An old boxspring may not provide sufficient support. It may appear that your new mattress is sagging when it is really the boxspring, which supports the entire mattress.

DO use an appropriate frame and center support for queen & king-size sets. Using the right support frame will ensure your warranty remains in effect.

DO keep your retail receipt in a safe place.

DO turn your mattress on a regular basis.

DON'T

DON'T PLACE YOUR MATTRESS NEAR OPEN FLAME OR EXPOSE TO FIRE. THIS MATTRESS IS NOT FLAME OR FIREPROOF, AND CAN IGNITE AND/OR BURN IF EXPOSED TO OPEN FLAME OR FIRE. WHEN IGNITED, SOME BEDDING MATERIAL CAN BURN RAPIDLY AND EMIT SMOKE AND HAZARDOUS GASES.

DON'T smoke in bed. This mattress is manufactured as required by federal law to resist, but not necessarily eliminate, ignition by smoldering cigarettes.

DON'T let anyone stand or jump on your mattress. It was not built for that kind of weight concentration or abuse.

DON'T allow your mattress to get wet because some upholstery materials may compress. Protect it from water or other liquids.

DON'T place a board between your mattress and boxspring. *Your sleep set is designed specifically to provide you with proper support, and the boxspring plays an important role.*

DON'T bend your mattress more than 25°. Such treatment may damage the innerspring unit. Flex rather than bend the mattress when going through doorways.

DON'T use dry cleaning fluid of any type on your mattress. These chemicals will damage some of the construction materials.

DON'T remove the law tag label at the end of your mattress. *This serves as a means of the identification to establish your warranty rights.*
