

When submitting your CPSR forms, we will request that you also send specific documents for each ingredient included in your recipes. We highly recommend that prior to purchasing a CPSR, you download all documents, so that you have everything ready for when you wish to submit your recipes. This will help speed up the process, as the sooner we submit the documents to the assessor, the sooner the assessments will be returned to you. If submitting multiple recipes for assessment, please do not send all the documents mixed together, as this will slow the process whilst we separate them for each assessment.

You may also have difficulty obtaining documents from certain suppliers. If purchasing ingredients from websites such as Amazon, eBay, markets, small vendors etc., we recommend requesting the documents prior to committing to an ingredient, as we may not be able to assess the products without them.

The following documents will be requested:

MSDSs for all ingredients

MSDSs, IFRA's and Allergen Declarations for Flavour, Fragrance and Essential Oils.

If ingredients are food grade, pictures of the product ingredient labels will be sufficient instead.

Please note: If you are unable to provide these documents, we may not be able to proceed with your submission. Please only send the documents listed above.

CoAs will not be required unless specifically requested.
