**CALL: 856-776-1176 for info on
our plug and grow system**

Additional 100 WATT Solar Panels can be added to your plug and grow system to have more available power for your needs. The Solar Panels come with Storm Anchors to help you keep it where you want it.

With our 12 Volt Trunk Line you can power your lamps in your house with our 12 Volt bulbs, just screw them into your bedside lamp or chairside lamp and with our adaptors plug them into our 12 Volt Trunk Line and you will have efficient lighting.

COOKING:

Your 1500 or 3000 Storm Ready Generator can run 12 Volt cooking appliances, like sauce pans, frying pans, and much more.

REFRIGERATION– Use your Storm Ready 1500 to keep your refrigerator going through a storm, or purchase our 12 Volt efficient refrigerator/freezer for total off grid applications.

Solar panels:

EMERGENCY POWER FOR YOUR HOME FROM YOUR CAR OR TRUCK:
The Storm Ready 1500 and 3000 models comes with a heavy duty electric umbilical cord to connect to your vehicle– to quietly charge you Solar Generator Power Packs during in climate weather. You will still have emergency power.

You can use the Command and Control center to jump start your vehicle to!

You can grow your 1500 or 3000 Storm Ready Generator by purchasing our 100 AMP HR ACM Power Packs with plug and grow ease.
