Blends Well With: [Basil](#), [Cajeput](#), [Cedarwood](#), [Citronella](#), [Lavender](#), [Lemon](#), [Myrtle](#), [Spearmint](#) and [Tea Tree](#)

Product Abstract: Eucalyptus Globulus is also known as Blue Gum. It's an evergreen tree commonly found in Australia, which grows from 30 to 55m tall with long narrow bluish-green leaves and white-yellow flowers. Eucalyptus leaves are the favourite food of Koalas and have been used as traditional medicine by the aboriginal peoples of Australia. In the 1980s, the Eucalyptus species and its hybrids were planted commercially in South Africa for the production of pulp and paper, and various other forest products. It has slowly evolved toward the production of essential oils.

Eucalyptus Globulus Oil – Offers a very herbaceous scent with soft woody undertones.

Eucalyptus Blue Mallee Oil – Has the highest Cineol content and Eucalyptol.

Eucalyptus Lemon Oil – This oil has a slightly camphoraceous odor with a sweet, citronella scent.

Eucalyptus Essential Oil (Radiata) – This type of eucalyptus has a crisp, clean camphoraceous aroma and includes some subtle back notes of citrus and floral.

Unsure which Eucalyptus is best for you? Check out our blog on the differences.

Cautions: Avoid if you have high blood pressure or epilepsy. For external use only, this is considered toxic if taken internally. Dilute before use; may cause skin irritation in some individuals, so a skin test is recommended prior to use. Avoid contact with eyes.

NOP Certified

Certified Organics: This Certified Organic Oil is QAI Certified. The National Organic Program develops, implements, and administers national production, handling, and labeling standards for organic agricultural products. The QAI also accredits the certifying agents (foreign and domestic) who inspect organic production and handling operations to certify that they meet USDA standards.
