

ROSEWOOD (Natural Identical) Essential Oil

Natural Blends are blends of oils from various natural sources to achieve an economical product that resembles the aroma of a pure essential oil. Natural Blends are all natural, and do not contain any synthetics, artificial flavors, or aromatic compounds. They are not therapeutic grade but are natural fragrance oils suitable for use in all-natural products.

Main Constituents:

Linalool: 86.9%

Plant Part: Rosewood is now an endangered species, so this is a substitute blend made up of purely natural constituents to smell as much like the real Rosewood as possible.

Origin: Canada

Description / Color / Consistency: A thin, clear, colourless to pale yellow liquid.

Aromatic Summary / Note / Strength of Aroma: A top note with a medium aroma, this oil has a warm and woody scent, though sweeter and slightly floral.

Blends well with: [Cedarwood](#), [Geranium](#), [Rosemary](#), [Mandarin](#), [Ylang-ylang](#).

Product Abstract: Rosewood is a small evergreen tree now controlled as an endangered species by the Government of Brazil. Since there is very little good affordable quality of Rosewood Oil available, we offer this natural blend which imitates the components and scent of the real Rosewood Oil. This oil is rich in linalool, a chemical which can be transformed into a number of derivatives of value to the flavor and fragrance industries.

Cautions: Dilute before use; for external use only. May cause skin irritation in some individuals; a skin test is recommended prior to use. Contact with eyes should be avoided.
