

MAGIC WAX

TECHNICAL SHEET

Anti-static luster and car protection

WAX MAGIC is a product allowing you to protect your vehicles without contact in just a few minutes. An antistatic protective screen will protect it until the next wash. Its durability is 8 weeks and more. It is possible to apply the product without contact, like a quick wax with the help of a cloth. It is also possible to use this same product as a window cleaner, mirror cleaner and even to clean stainless steel (stainless steel) easily and quickly.

Manual

1- Anti-static protective sheen (self-drying)

When you have finished washing your vehicle and rinsed it, completely spray your vehicle with CIRE MAGIQUE and rinse it again. Let the vehicle dry in the shade without touching it. Once dry and shiny, you can make small touch-ups if necessary as explained in the instructions for use.

"2- Anti-Static Quick Shine".

Note : L'eau utilisé pour le rinçage ne doit pas être de l'eau dur.

2- Anti-Static Quick Shine

On a clean, dry vehicle, spray the surface you wish to polish with CIRE MAGIQUE and wipe it with a clean cloth..

3- Windows – Mirrors – Stainless

Spray surface lightly and wipe with a cloth that has not been in contact with fabric softener or use paper towels
