

EXTRA-POLISH

TECHNICAL SHEET

Metal Polisher

Extra Polish is a solvent-based polish. Used to polish stainless steel, aluminum and copper, Extra Polish has a particular power to remove more superficial scratches in aluminum and other metals. The result remains exceptional on all metals. The extra polished is ideal for surfaces in good condition.

Manual

- 1- Apply the extra-Poli with a foam pad applicator
- 2- Use a suitable polishing disc depending on the surface to be polished
- 3- Polish the surface
- 4- Remove paste residue with the help of a cloth

Conditioning

Packaging: 500ml bottle (MEP1)

Technical data

Physical state	White liquid
Odor	Mild
Flammable	Yes
Colour	White
Density	0.88
Flash point	56-64 C
Boiling point	N.A.
PH at 5%	N.A.
Chlorine	0.0%
Sulfur	0.0
