*That Hard to Find Part is Right Here!*

The self-closing push button gravity faucet has a solid brass body. The stem is spring loaded closing the faucet against low pressure water. The spout and internal metal parts are brass. The seat washer is EPDM rubber and the packing is a felt material. A 3/8-inch straight pipe thread male shank is provided with rubber washers and a locknut for mounting. The push button faucet has a polished chrome plated finish.

Meets ANSI/NSF Standard 61, Section 9, for Lead
