GUESTROOM TVS

LG

**Business
Solutions**

GOOD

1080p: 1080p, also known as Full HD (FHD), is a common display resolution of 1920 x 1080 pixels that offers sharp picture clarity and progressive scanning. These legacy LG displays are ideal for budget-conscious buyers.

BETTER

4K: LG's 4K UHD TV delivers four times the resolution of a standard HD TV, offering a bigger, bolder, and more lifelike TV viewing experience.

BEST

Nanocell: LG NanoCell TVs deliver enhanced 4K movies, sports and gaming. Nano Color brings natural, lifelike color while Nano Accuracy offers more precise color and wider angles. Whatever your guests demand, NanoCell delivers.

PREMIUM

OLED: LG's 4K LED TVs bring you a whole new TV experience thanks to more than 8 million self-lit pixels. Enjoy the deepest blacks, richest colors, and most realistic picture quality available in the world.

#KnitecKnows Facts

Unlike LCD or conventional LED technology, OLED uses millions of self-lit pixels to give you consistent detail, even when the cinematography gets dark.

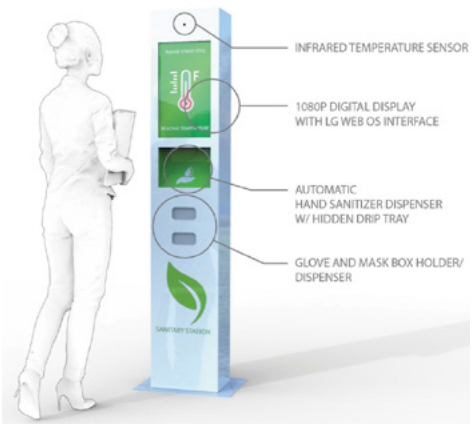

PUBLIC SPACE DISPLAYS

DIGITAL SIGNAGE AND KIOSK

Digital Signage: With increasingly intuitive Content Management Software, hoteliers can leverage a few well-placed Digital Signage Displays for wayfinding, announcements, and amenity advertisements.

Kiosk: The Wellness Station helps keep guests and employees safe with automatic hand sanitizer dispenser, gloves and masks, and non-contact temperature screening.

DVLED

Direct View LED Signage: LG's indoor and outdoor Direct View LED Signage solutions are designed to create engaging viewing experiences. DVLED provides vivid colors and is perfect for hotel lobbies and eye-catching outdoor marquees.

#KnitecKnows Facts

24/7 rated displays are ideal for casinos, airports, and for displays that will be in constant use.

16/7 rated displays are most often used in restaurants, retail, and for displays operating during normal business hours.

MOUNTS

#KnitecKnows Facts

Many brands specify a flat mount for guestroom installation, but we typically recommend a tilt mount so you don't have to take the TV off the wall to service it.

INSTALLATION

KniTec's installation team handles everything. We receive the displays on site, check them for damage, handle any damage claims, stage the displays, discard the trash, complete the installation, program the displays, troubleshoot challenges, and handle all warranty claims for defective units. We do all of that while staying out of your way so you can focus on what you do best.

#KnitecKnows Facts

WE HAVE PROVIDED
INSTALLATION
SOLUTIONS FOR:

- Hotel Rooms
- Restaurants/Bars
- Casinos
- Hotel Lobbies
- Storefronts

ENTERTAINMENT

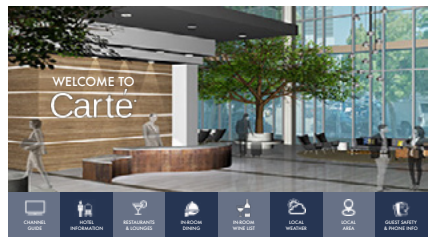

KniTec offers Creative Services, which include digital signage content creation, marketing collateral collaboration, and Hospitality TV menu design for popular platforms, including LG Pro:Centric.

Restaurants, pubs, hotels, and other businesses have professional help for their digital signage content, and now you do too! Let us deliver your units with the approved content already loaded. Easy, effective, and beautifully designed!

#KniTecKnows Facts

When you order from KniTec, we can deliver your units with the approved menus pre-loaded.

SERVICE BEYOND THE SALE

POST-SALE SUPPORT

We'll Wait on Hold: We handle all damage and warranty claims on behalf of our customers.

Your Business First: We also offer Advanced Replacement in the event a damaged TV prevents you from operating at capacity.

LOGISTICAL SUPPORT

On Your Schedule: Whether you want your order to arrive together or on a roll-out schedule, our post-sale support team is here to help and ensure that your TVs arrive when you want them to.

Delays Happen: And when they do, we'll communicate with you and work with the carrier so your TVs arrive when you're ready for them.

Warehouse Network: KniTec's customers have access to our network of warehouses throughout the country. We manage our warehouses with our customers in mind and ensure your order is close by when you need it.
