UL Listed Hospital Smart TV

LT662M Series

Commercial Lite	Pro:Centric	Pro:Centric Enhanced	Pro:Centric Smart

The LT662M Hospital Smart TV Series provides advanced Pro:Centric technology designed to meet the needs of patients and staff. A cost-effective solution for healthcare facilities, this Full HD TV includes Pillow Speaker support and Hospital UL Certification to enhance patient-centered care.

LG | Business Solutions

UL Listed Hospital Smart TV

LT662M SERIES

FEATURES FOR THE HOSPITAL ENVIRONMENT

Pillow Speaker Ready

Audio and video can be controlled directly by a Pillow Speaker for patient convenience.*

* Requires third-party pillow speaker.

Nurse Call System Ready

Existing hospital nurse call systems can be accessed via this TV's Pillow Speaker. This allows hospital staff to quickly and easily be called when needed.

UL Hospital Grade Listed

The LT662M Series is UL listed for use in healthcare and hospital environments.

LT662M SERIES

## FEATURE HIGHLIGHTS

Pro:Centric Application Platform

An industry-leading television that supports the Pro:Centric platform, LG's new LT662M Series allows healthcare facilities to customize the patient room experience. The Pro:Centric application enables the LT662M to provide an interactive program guide and display facility information, such as dietary menus and patient room information.*

* May require additional software and hardware to support third-party partner interactive systems or LG's Free-to-Guest Mode / Pro:Centric application

First Use Wizard

The First Use Wizard offers quick configuration options including Express Script, which allows you to easily enable and configure Hospital Mode features.

Above screen image is simulated.

Pro:Idiom

Digital Rights Management (DRM) technology unlocks access to premium content to help assure rapid and broad deployment of HDTV and other high-value digital content.

UL Listed Hospital Smart TV

LT662M SERIES

FEATURE HIGHLIGHTS

SoftAP

Software-enabled Access Point (SoftAP) is a "virtual" Wi-Fi that uses software to create a wireless hotspot. The current version supports Bridge Mode, which enables network managers to control connected devices.

* SoftAP should be set in installation menu after TV is on.
* Smart Mirroring may not operate at the same time.

Instant On

When the TV is turned off, the Instant On feature allows the Pro:Centric app to remain loaded giving guests quick access to content when they turn on the TV.

USB Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation. Instead of setting up each display one by one, data can be copied to a USB for one display, and be sent to the other displays through a USB plug-in.

settings

Multi-code IR

Multi-code IR* function eliminates any remote control signal interference between TVs in rooms with multiple TVs installed.

LG TV 1   LG TV 2   LG TV 3   LG TV 9

LG Remote 1   LG Remote 2   LG Remote 3   LG Remote 9

* Requires optional multi-code IR remote.
