

# Multimedia Solution for Stand-alone TV

STB-3000 adds interactive multimedia capability on your Commercial Lite or Stand-alone TV. It's all that's required without the need to replace the TV, allowing you to enjoy the full capability of Smart TV.

## Pro:Centric<sup>®</sup> SMART STB-3000

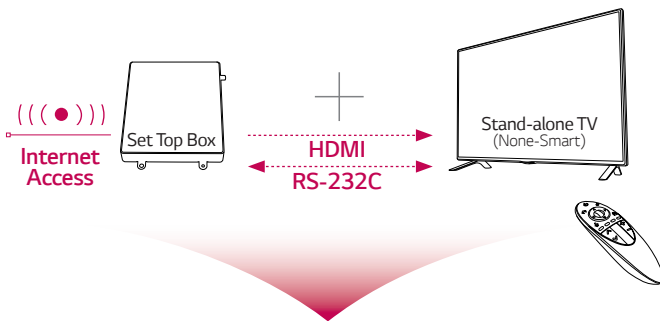

\* Compatible with LG commercial TV models only.

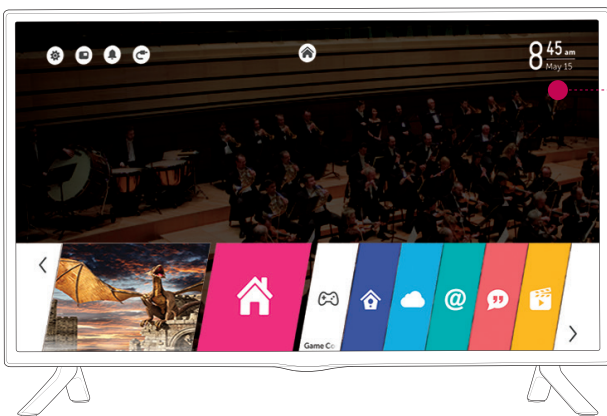

### Key Features

- Supports HTML5, Java, Flash
- Web Browser, Embedded Smart Apps
- Guest Connectivity
- DLNA, WIDI, Smart Mirroring, WiFi Direct
- Embedded Prodiom<sup>®</sup> decryption

## Usage Scene

### Smart Hotel TV

### Smart Management

Remote Diagnostics and signal monitoring via an embedded web server, enabling SI or LG engineers to check TV or signal information easily.

### Simple Content Customization

<CUSTOM USER INTERFACE>

<PRE-LOADED APPLICATIONS>

LG Pro:Centric<sup>®</sup> Smart offers SI's the ability to customize and optimize a property's TVs with interactive IP-based applications including HTML5, Java and Flash programs to provide premium hotel services.

### Smart Screen & Content Sharing

• WIDI (PC to TV Wi-Fi)  
• Mirroring (Mobile to TV Wi-Fi)

• SmartShare  
• Wi-Fi Direct

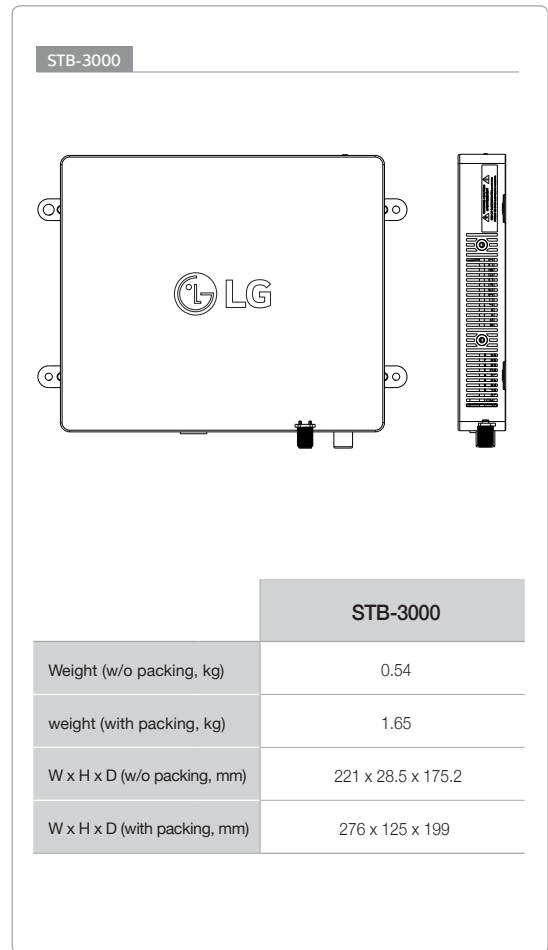

Commercial SmartShare allows Screen and Content Sharing between TV and surrounding devices through WIDI, Mirroring or DLNA.

# STB-3000

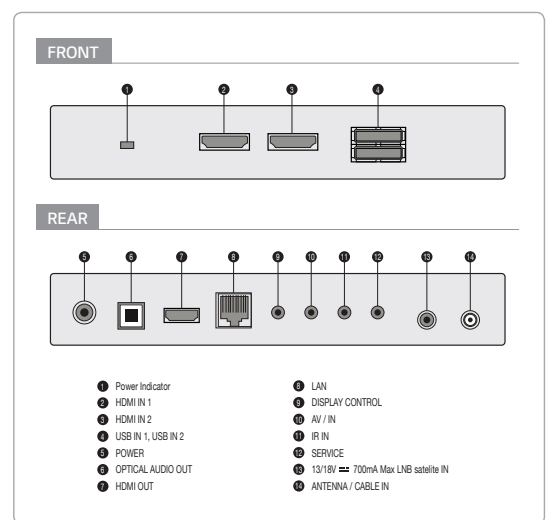

## Specification

Model Information	Category	Set Top Box	
	Production Model	STB-3000	
	Chassis Platform	M14 (Commercial)
