

Introducing LYNK Cloud

The ultimate guestroom management solution.

Netflix subscription required.

LYNK Cloud

Samsung LYNK Cloud offers a completely scalable, cloud-based solution for monitoring, managing and maintaining your entire fleet of guestroom TVs.

Allow guests to access OTT content they're guaranteed to like.

NETFLIX

PLEX

YouTubeTV

YouTube

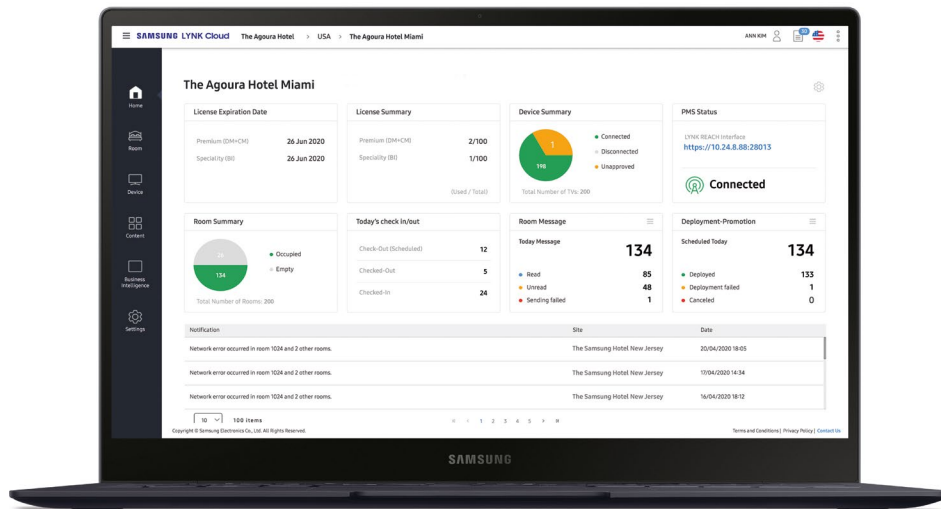

iHeartRADIO

pandora

Not a complete list of apps. Available apps subject to change. Netflix is available on the Samsung RU750 hospitality TV series and Catapult set-top box with select system integrators.

Netflix subscription required.

DEVICE MANAGEMENT

Know exactly what's going on with each device at a moment's notice.

Automatically capture info on each connected device, track firmware versions, push TV configuration settings and more.

LYNK Cloud

CONTENT MANAGEMENT

HTML-based easy content management.

Upload videos, images and GIFs, use provided content framework and templates that support HTML5/Javascript, and use the Open API platform to incorporate interactive modules for ordering, booking and more.

BUSINESS INTELLIGENCE

Have the business intelligence to know what guests prefer.

Analyze what guests engage with, analyze TV and OTT content usage, and gather valuable insight regarding where guests enter or exit promotions.

Flexibility of three different license options
