**KNOW
YOUR
DRONE**

**TO FIND OUT WHERE YOU CAN AND
CAN'T FLY, USE A CASA-VERIFIED
LOCATION-BASED MOBILE OR WEB APP.**

You must not fly your drone higher than 120 metres (400 feet) above ground level.

You must keep your drone at least 30 metres away from other people.

If your drone weighs more than 100 grams, you must fly at least 5.5 kilometres away from a controlled airport, which generally have a control tower at them.

If you're near a helicopter landing site or smaller aerodrome without a control tower, you can fly your drone within 5.5 kilometres. If you become aware of manned aircraft nearby, you will have to manoeuvre away and land your drone as quickly and safely as possible.

▶▶▶ KNOWYOURDRONE.GOV.AU

You must only fly during the day and you must not fly through cloud or fog.

You must only fly one drone at a time.

You must not fly over or above people or in a populous area.

You must keep your drone within visual line-of-sight (rather than through a device, screen or goggles).

You must not fly your drone over or near an area affecting public safety or where emergency operations are underway.

If you intend to fly your drone for or at work (commercially), there are extra rules you must follow. You may also need to register your drone and get a licence or accreditation.

Remember, you must not operate your drone in a way that creates a hazard to another aircraft, person or property.

Respect personal privacy. Don't record or photograph people without their consent —this may breach other laws.
