

## Endurance Outer Rotor

- New lighter Outer Rotor gives a higher response "pick up".
- New digital programmable C.D.I. which is possible to change the CPU.
- It makes a stable current characteristic from low rpm, by using the battery ignition system.

Model	P/No.	Price
12V Monkey / Gorilla	271560	¥57,750
APE50 / XR50Motard	295560	¥57,750
APE100 / XR100Motard	298560	¥57,750

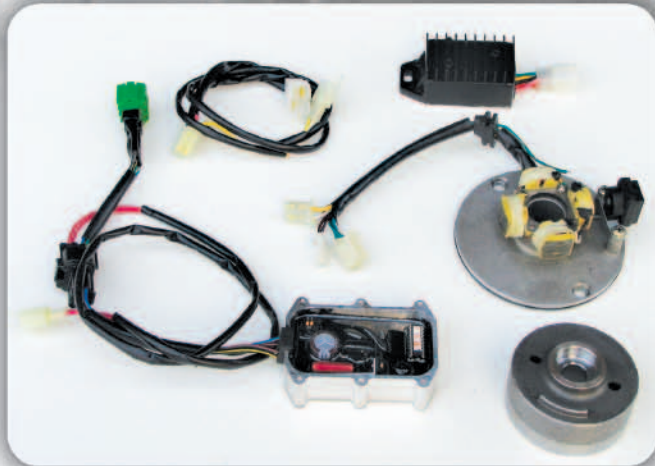

### Programed one tip microcomputer for setting the spark timing

You can choose 5 different type of the programed CPU.(MK-1~MK-5&AP-1~AP-5) Possible to program 4 different spark timing on one CPU.

Model	Description	P/No.	Price
12V Monkey / Gorilla	MK-1	271565-01	¥2,100 (1CPU)
	MK-2	271565-02	¥2,100 (1CPU)
	MK-3	271565-03	¥2,100 (1CPU)
	MK-4	271565-04	¥2,100 (1CPU)
	MK-5	271565-05	¥2,100 (1CPU)

Model	Description	P/No.	Price
APE50/100 XR50/100Motard	AP-1	295565-01	¥2,100 (1CPU)
	AP-2	295565-02	¥2,100 (1CPU)
	AP-3	295565-03	¥2,100 (1CPU)
	AP-4	295565-04	¥2,100 (1CPU)
	AP-5	295565-05	¥2,100 (1CPU)

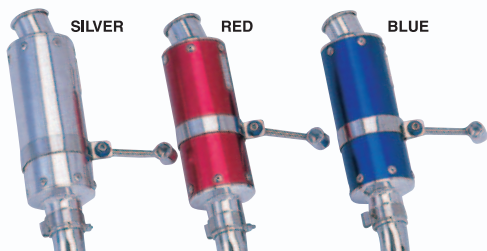

### Optional parts

CPU uninstillation tool "IC extractor"	271569	¥525
--	--------	------

## ACS racing exhaust

- Necessary to change the Kick arm. (P/No.#270680 ¥6,090)

Model	Color	P/No.	Price
Monkey, Gorilla (Frame No. Z50J-1300017)	SILVER	271050	¥29,400

\*To fixation screw : the size is M6, 2 places of drilled hole processing in 90°

# Bore-up kit

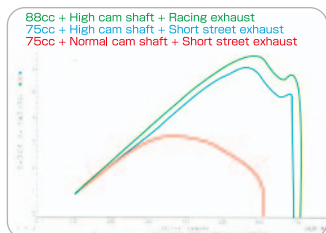

## Big Fin head Bore-up kit

- By the enlarged Fins of cylinder head, increase radiation area and correspondence to the increase of the calorific value.
- The compression ratio was kept down to 12:1. This kit is not only about the pursuit of high power, it was designed with carburetor setting in mind.

### Specification

■ bore =  $\phi 52\text{mm}$  ■ displacement = 88cc ■ compression ratio = 12

Description	P/No.	Price
Big Fin head Bore-up kit	271500	¥52,500
Big Fin head Bore-up kit (with high cam shaft)	271505	¥60,900

\*Data source of this chart is POSH chassis dynamo results

### Handling matters that demand special attention

- The models which has the Leg shield (CD50, Super cub, etc.), the cylinder in this kit doesn't have the hole for it to installation.
- In order to use this kit, you must change the carb & exhaust. It's better to use a carb with a high performance. (KEIHIN PC20 or over)
- Can not use the stock cam shaft and cam gear of Monkey & Gorilla (Engine No.#1606093 1805927).  
Use the cam shaft, cam gear and knock pins of 12V Monkey. Can not use the stock cam shaft Monkey-R/RT.

## Aluminum Cylinder bore-up kit

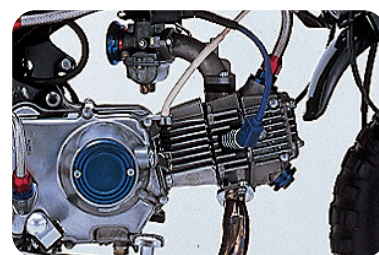

- With this kit you don't have to change the cylinder head to bore-up, by using the C.F.POSH new designed piston
- The aluminum cylinder is lighter compared to the OEM cast iron cylinder and also effective for heat radiation

### Specification

■ bore= $\phi 48\text{mm}$   
■ displacement=75cc

### Contents

- Cylinder
- Piston kit
- Gasket set

### Handling matters that demand special attention

The models which has the Leg shield (CD50, Super cub, etc.), the cylinder in this kit doesn't have the hole for it to installation.

## Racing C.D.I. "Super battle"

- Best matches with ACR racing exhaust. Necessity item for the tuned engine.
- Easy installation.

Model	P/No.	Price
12V Monkey Gorilla	271061	¥6,090

## High Capacity Main Harness kit

- 0.75sq material is adopted in order to respond to bigger electric power.
- Genuine alarm kit can be connected.
- Increased the reliability of earthing between the engine and the frame by adding the engine earth.

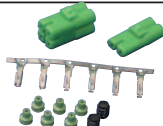

Description	P/No.	Price
High Capacity Main Harness kit	271400	¥9,240

Can not install Momkey-Baja OEM No. #32100-165-A11.

Monkey/Gorilla Frame No.	Description
Z50JN FNo.Z50J-2000001~	● No use of side-stand-switch-harness because the side-stand-switch is not equipped.
Z50JP/JS/JT/JV/JW/JX FNo.Z50J-2100001~	● Side-stand-switch-coupler cannot be attached because the type of side stand switch is different. Thus the "side stand engine cut off facility" with which the engine cuts off when side stand indicator and side stand are left out will not function. ● This kit does not include the earthing (grounding wire) terminal for front turn signals of 12V Gorilla. Grounding wire terminal for turn signals must be grounded separately.
Z50JY/J1~J7 FNo.AB27-1000001~	● This kit does not include the earthing (grounding wire) terminal for front turn signals of 12V Gorilla. Grounding wire terminal for turn signals must be grounded separately.

## C.D.I. coupler set for stock harness

Model	P/No.	Price
12V Monkey / 12V Gorilla APE50/100, Magna 50 Live Dio/-SR-ZX ('94~'96)	200800	¥840

## Sealed battery coupler

Description	P/No.	Price
Sealed battery coupler for 12V Monkey.....1pc Battery terminal.....2pcs Fuse terminal.....2pcs Fuse (10A).....2pcs	270842	¥1,575

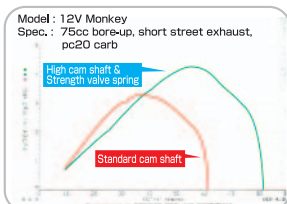

## High cam shaft & Strength valve spring

- For normal cylinder head 12V Monkey and Gorilla. This cam shaft was designed with new technology and original profile.

<Maximam range of RPM>

Standard valve spring..... Maximum 10,000 rpm  
The exclusive strength valve spring..... Maximum 13,000 rpm

\* Make sure check the rpm by a Tachometer

- High cam shaft & Strength valve spring for our high cam shaft.

\* Data source of this chart is POSH chassis dynamo results.

Description	P/No.	Price
High cam shaft	270110	¥9,240

Description	P/No.	Price
Strength valve spring	270111	¥2,940

## Racing C.D.I. "MEGA battle" SP. Version

- Choice 6 different types of ignition timing. Variable ignition timing

Model	P/No.	Price
12V Monkey / Gorilla	271360	¥8,400

\*It doesn't change the top-speed, due to other limiting factors (engine size, exhaust, e.t.c.) only C.D.I.

Possible to choose **6 different** types of ignition timing

## Battery-Less unit

A "Must" item for mini-motorcycle race!

- Much lighter than maintenance-free-battery.
- This unit stabilizes supply voltage to C.D.I. even when the battery is removed. (\*Test conducted only with CF POSH made C.D.I. and genuine C.D.I.)

Model	Description
12V Gorilla, e.t.c. ( '94' ) Live Dio/-ZX	

Description	P/No.	Price
Battery-Less unit	271540	¥3,990

- \* Since this product is not a battery, it does not store electricity. Thus starter-motor and antiftheft device will not be activated.
- \* Turn signals, horn, head light, breaking lump and so forth may not be activated properly when the electricity is not generated enough like idling time.
- \* This product does not necessarily assure accurate functioning of all the aftermarket parts installed to motorcycle unit.

## Earth bonding system reinforce kit

- This kit is developed to assist earth bonding system to bring out its full potential by cutting down differences of voltages among each electric equipment.

\* Please note that this kit will have no effect on the motorcycle with its electric potential level tuned even.

\* Installed  
#95 mainjet, #35pilot jet

This photo shows for normal cylinder head

### Repair parts

Description	P/No.	Price
PC20 Carburetor	270020	¥12,600
Manifold for normal head (14mm)	270021	¥3,675
Manifold for big fin head (22mm)	271521	¥3,675

\*Please do not hesitate to ask us for other repair parts and the contents of this kit.

## Big flow fuel valve

- The diameter of the fuel valve become 5mm from 3 mm (STD size). 2.7 times expansion of the fuel flow areas improves performance of the high-tuned engine.

### Specification

- Diameter of installation nut M14/P1.0mm
- Material AL. 2017 machined
- Diameter of hose inside 8mm
- \*No filter system

\*Change position of the carburetor in case of necessity.

Model	Color	P/No.	Price
Monkey / Gorilla (Frame No. Z50J-1300017*) (AB27-100000*)	SILVER	270532	¥7,140
	BLUE	270533	¥7,140

\*All the parts are finished silver, except anodized handle part.

## Short curl funnel for KEIHINPC20 Carburetor

- It reduced inhalation resistance of the air around carburetor and makes good throttle response.
- Machined aluminum with anodized finish and assembled stainless net.

Color	P/No.	Price
SILVER	270270	¥3,990
BLUE	270271	¥3,990

\*Carburetor is not included.

## Power filter Oval type

- Installation diameter  $\phi$ 44mm (universal)
- Installable Carburetor : KEIHIN PE20/22/24, MIKUNI VM22/24/26

### Specification

- Valve diameter : 6.2mm

With valve to joint an air bleeding hose.

Description	P/No.	Price
Power filter Oval type without air bleeding valve	471480	¥2,520
Power filter Oval type with air bleeding valve	471485	¥3,150

## Power Funnel Filter

- It has a funnel type rubber joint.
- Air induction is increased by its funnel shape construction.
- Diameter of the induction pipe is  $\phi$ 35mm and universal type.

It has a valve to joint an air bleeding hose.

↑ Without air bleeding valve.

Description	P/No.	Price
Power funnel filter (without air bleeding valve.)	271480	¥2,310
Power funnel filter with air bleeding valve.	271485	¥2,940

### Specification

- Total length : 70mm
- Filter part : The outside diameter is  $\phi$ 75mm and the length is 52mm.
- Air bleeding valve : The outside diameter is  $\phi$ 6.2mm.

### Model

New 12V Monkey and Gorilla (AB27-1000001~models)  
HONDA APE50/100  
the bikes KEIHIN PC20 carburetor installed

The Funnel shape rubber joint

## H.F Power Filter

- Gets maximum filtration and high performance by using a dual foam structure in circumference.
- We recommended to use our specific filter oil.

Color	P/No.	Price
