

## Nature's Technology At Work in Your World®

Orb-3 Solutions natural enzyme technology is non-hazardous, non-toxic, & non-flammable, making them safe for the environment & those who use them. Complement pool/spa treatments with: enzymes for water quality & clarity, phosphate reduction agents, antifoam & cleaners for decks, furniture & equipment.

Pool & Spa

# ORB-3®

SOLUTIONS

## DropOut™ PHOSPHATE REMOVER

Reduces high phosphate levels  
Will not decrease pH or alkalinity  
Removes algae's food source  
Safe to swim immediately after use

**Description** Orb-3 DropOut targets high phosphate levels in residential & commercial pools. Its powerful active ingredient is designed to tie up phosphates in pools without upsetting pH & alkalinity.

Economical Orb-3 DropOut quickly binds phosphates in the water - so your pool chemistry stays in line.

To achieve consistent control, choose Orb-3 PRA & Enzymes Maintenance to manage incoming phosphates.

**Directions** Mix the recommended dosage with a bucket of pool water & evenly apply around the pool surface.

**Usage Rate** For 3000ppb Reduction: 32 oz per 10,000 gallons of pool water. For 1500ppb Reduction: 16 oz per 10,000 gallons.

**For Best Results** Dilute the amount of product needed with one gallon of pool water for every 10,000 gallons to be treated, & pour evenly over pool surface.

**Special Instructions** Turn off pool filter while product works throughout the pool water. After 12 to 24 hours, vacuum the cloudy water to waste. Then restart pool filter to remove what remains. It is very important to monitor & maintain normal back pressure levels in the pool filter.

**Shelf Life** Store this product out of direct sunlight in a cool dry area. For best results, use within 12 months.
