

## Nature's Technology At Work in Your World®

Orb-3 Solutions natural enzyme technology is non-hazardous, non-toxic, & non-flammable, making them safe for the environment & those who use them. Complement pool/spa treatments with: enzymes for water quality & clarity, phosphate reduction agents, antifoam & cleaners for decks, furniture & equipment.

Pool & Spa

# ORB-3® SOLUTIONS

## PRA & Enzymes Maintenance

PHOSPHATE REMOVER & ENZYME

Reduces phosphates & scum lines  
Improves water clarity  
Safe to swim immediately after use  
Augments chemical treatments

**Description** The powerful combination of broad-based enzymes & a food grade phosphate reducer makes this maintenance product one you'll keep coming back to! Orb-3 PRA & Enzymes Maintenance should be used weekly to keep phosphate levels in check while degrading grease, oil, and other contributors to cloudy water.

**Directions** Mix the recommended dosage with a bucket of pool water and evenly apply around the pool surface.

**Usage Rate** For 750ppb Reduction: 32 oz per 10,000 gallons of pool water. For 375ppb Reduction: 16 oz per 10,000 gal.

**For Best Results** Double recommended dose when opening or closing the pool for the season or if bather loading increases significantly. Apply product more frequently (i.e. half the dose twice per week) to arrive at the same weekly rate of product consumption. Performance will improve with more frequent application. Use automated pump if possible. Apply when water temperature is 50-110 degrees F and pH and alkalinity are at recommended levels.

**Special Instructions** Monitor and maintain normal back pressure levels in the pool filter. Safe to swim immediately after use. If a cloud begins to form, turn off pool filter while product works throughout the pool water. After 12 to 24 hours, vacuum the cloudy water to waste. Then restart pool filter to remove what remains. Continue to monitor and maintain normal back pressure levels in the pool filter.

**Shelf Life** Store this product out of direct sunlight in a cool dry area. For best results, use within 12 months.
