Pool & Spa

ORB-3® SOLUTIONS

Pool Enzymes

Treats up to 64,000 Gal

Eliminates scum/waterline buildup
Clarifies pool water so it sparkles
Keeps filters cleaner longer
Augments chemical treatments

Description Orb-3 Pool Enzymes safely remove organic material that causes water clarity problems & waterline build up.

Orb-3 Pool Enzymes can be used with other water treatment chemicals to help stabilize pH, reduce water upsets & make your pool sparkle.

Directions Mix the recommended dosage with a bucket of pool water & evenly apply around the pool surface.

Usage Rate 1 ounce per 2,000 gallons of pool capacity weekly.

For Best Results Double recommended dose when opening or closing the pool for the season or if bather loading increases significantly. Apply product more frequently (i.e. half the dose twice per week) to arrive at the same weekly rate of product consumption. Performance will improve with more frequent application. Use automated pump if possible. Apply when water temperature is 50-110 degrees F & pH & alkalinity are at recommended levels.

Special Instructions Do not mix directly with sanitizers or other chemicals. Safe to swim immediately after use.

Shelf Life Store this product out of direct sunlight in a cool dry area. For best results, use within 12 months.
