

ORB-3[®]

SOLUTIONS

Wastewater Treatment Enzyme

Cleaves organics in the waste stream
Acts as a wetting agent and emulsifier
Improves settling
Improves water quality and clarity
Removes malodors

1 Gallon
Made in the USA

Nature's Technology At Work in Your World

Orb-3 Solutions environmentally friendly approach helps maintain a clean environment without the use of harsh chemicals. Orb-3 Solutions natural enzyme technology is non-hazardous, non-toxic, & non-flammable, making them safe for the environment & those who use them.

Description Orb-3 Wastewater Treatment Enzyme combines the speed of a non-bacterial enzyme with powerful non-ionic surfactants that work together to emulsify and cleave organic contaminants so they will not reform downstream.

Usage Rate

Aerated Basins: 4 ppm for each 300 ppm BOD; dilute recommended dose 1:100 through a metering pump; apply flow proportionately

Anaerobic Lagoons: 25-50 ppm to volume; then treat influent flow proportionately at 25-50 ppm; dilute recommended dose 1:100 through a metering pump

Wet wells & lift stations: 25-50 ppm to flow; dilute recommended dose 1:100

Holding Tanks: 8 oz per 1,000 gal capacity weekly; charge once tank is emptied; dilute recommended dose 1:100

Odor Control: included in all treatment levels

For Best Results

Treat consistently using automatic feed system. Proper circulation or aeration where applicable. Increase dilution upon application to enhance product performance.

Shelf Life Store this product out of direct sunlight in a cool dry area. For best results, use within 12 months.
