Dear user,

Thank you for choosing REDRAGON! To protect your rights and for better customer service, please read the following warranty note carefully.

1. Within 12 months of purchase date, repair is guaranteed for failure due to electrical problems. Wear, misuse, damage, such as discoloration, small impacts, submersion into water, plugging into improper current or voltage, and damage caused by the nature of misuse such as flaws, or earthy parts are not included.

2. Consumable parts such as keys, cables, and store parts replacement are not included in our warranty.

How to connect keyboard with computer

Wireless Connection:
1. Take out the USB Type-C USB Cable in the package and connect the keyboard with your computer. The computer will recognize and configure the keyboard automatically.
2. The keyboard will be ready for use when the configuration is finished.
3. Once the keyboard is powered up, it will automatically connect to your device for the next time.

RBT100 Keyboard:
1. Make the RBT100 switch on the left side of the keyboard ON.
2. Take out the same USB receiver and plug it into an available USB port on your computer.
3. The computer will recognize and configure the keyboard automatically.
4. The keyboard will be ready to use when the configuration is finished.
5. The keyboard can work for about 4 hours when the RBT100 button is ON, and about 2 hours when the RBT100 button is OFF.
6. In some cases, you may need to unplug the keyboard. Turn it on and unplug it from the USB receiver, plug it back in and the keyboard will be recognized automatically. Make sure the keyboard is placed below 1 meter of the USB receiver before doing so.
7. The backlight will turn off when the battery is low. Please recharge the keyboard in time or it will turn off automatically.

FAQ
1. If the keyboard doesn’t respond, please check if the keyboard USB cable is correctly inserted into the corresponding USB port on the computer, or try another USB port on the computer.
2. If you still can’t get it on the keyboard, please remove the USB cable if this keyboard from the computer immediately. Make sure there is no cable plugged into another port. The keyboard will only work in the keyboard mode automatically next time.
