

Valutek Spunbond Polypropylene Bouffant Cap

Part Number: VTBFC

Description: Valutek's disposable SPP bouffant cap is manufactured with 100% non-linting, non-woven spun bond polypropylene fabric, which provides breathability while maintaining snug full coverage for the operators. The bouffant cap has a filament covered unexposed elastic edge design for secure fit and unexposed closure. All Valutek bouffant caps are tested and manufactured in ISO compliant facilities under proper inspection and strict process control to ensure Valutek quality standard and product specifications.

Application: As part of the **Valutek Macrotek product family**, this product is recommended for use in a cleanroom Class 10,000+ (ISO 7+) critical environment.
