Artist's Notebook

Stippling is created by applying a small amount of paint to the tips of the brush bristles. Then lightly dab the surface with the brush completely vertical. This creates a shaded effect.

Painting Instructions

1. Prep the entire decoy in accordance with the decoy painting instructions, prime with gray Parker Decoy Primer. Draw lines using a pencil.
2. Paint the entire decoy using Bison Brown (4).
3. Paint the small dots on the head using White (2).
4. With a small old brush, stipple in some White (2) shading towards the front of the head.
5. Paint the bill Blue Gray (29) and while still wet, shade in some Slate Blue (60).
