67	Yellow	
68	Red	

Artist's Notebook

Painting the white spots on the head over Black will take multiple coats. Consider drawing out the spots and painting black around them. This will save you time and paint to cover the black.

Painting Instructions

1. Prep the entire decoy in accordance with the decoy painting instructions, prime with gray Parker Decoy Primer.
2. Paint the entire head and body Black (5).
3. Paint the forehead and back of neck White (2).
4. To paint the bill use a small round brush and start with White (2). Once dry apply Yellow (67) followed by Red (68).
5. Once colors have dried apply the Black (5) spot.
