LIFE IS A BEACH

What began as a real life enchantment with an underwater wonderland somewhere off the waters of Bali has morphed to life in this spectacularly whimsical collection of necklaces and jewelry from Riddhika Jesrani. Her Summer 2014 collection is full of fanciful flourishes on all the aquatic tropes: intricate organic coral, fantastical (and fun) fish and sailboats married with colorscales inspired by life on and under the sea. Set in her characteristically playful world, each piece tells a tale for the woman who chooses to wear these delightfully magical allusions to all things oceanic.
