

Masonic rings can be difficult and expensive to resize so please make sure to precisely check your finger size. The most accurate way to do this is to visit your local jewelry store. Or you can use our ring sizing template below.

Paper Test

PRINTABLE RING SIZER INSTRUCTIONS:

1. Print and cut out ring sizer
2. Cut slit at dotted line (A)
3. Place ring sizer comfortably around finger, numbers facing out
4. Slide Tab B through Slot A and secure ring sizer snugly around finger
5. Your approximate ring size should be the number that appears at the "Read Size Here" mark

Circle Test

Place an existing ring on a circle within the ring chart. The correct circle size should fit against the inside ring edge.

String Test

Wrap a string around your finger where the ring should be. Remove the string and compare to the dimensions within the circles.
