

# MOUNTING GUIDE

## Electric Shock Attention

Ensure the power supply has been cut off before connecting the wire, and all wiring and installation of this product are required to be operated by professionals.

# INSTALLATION GUIDE

Disconnect the power before Installation

Step1. Install the mounting clip. Locate the mounting clip at the position where the tube is installed on and fixed by screws. Check the fixity of the mounting clip to make sure it cannot be loosed and shacked.

Step2. Fix the tube. Align the mounting clip on the back of the tube and jam the tube into the clip firmly.

Step3. Use male and female joint cables to connect multi tubes(A to B),max power should be less than 250W.

Step4. Turn on the power.

### WARNING:

1. Risk of fire or electric shock, disconnect power before Installation
2. The electrical rating of these products are 100~277Vac, the installer must determine whether they have 100~277Vac at the luminaries before installation.
3. This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
4. To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
