

Size guide

Already have a ring that fits?! Use this printable PDF to determine your size, simply follow the instructions below or visit our Instagram for a step by step visual guide.

1. Print | Be sure to print at 100% and ensure 'scale to fit' is NOT selected.
2. Confirm | Compare the scale with a ruler to ensure accuracy.
3. Measure | Place the ring over one of the circles below, you should just be able to see the printed circle on the very inside of the ring band. If there is a gap between the circle and the ring band it is too small a size, if you can't see the circle on the inside of the band, it is too big a size. Move between the sizes until you find just the right fit.
4. Send | Take a photo of the ring over the correct size and email it to hello@twohills.com.au or note down the letter size / measurement in MM and forward on via email.

Know your US size...use the chart below to convert to Australian sizing. Don't see your size in the chart? Email your international size to hello@twohills.com.au and we'll convert it for you.

I	J	K	L	M	N	O
15.3mm	15.5mm	15.9mm	16.3mm	16.7mm	17.1mm	17.5mm
P	Q	R	S	T	U	V
17.9mm	18.3mm	18.8mm	19.2mm	19.6mm	20mm	20.4mm

*When printing, make sure 'fit to page' is NOT ticked, to ensure the sizes are accurate.
