

Wilson Salt has received an Invest NI Grant for Research and Development, supporting company innovation in services, products and processes. Part financed by the Investment for Growth and Jobs Programme for Northern Ireland co financed by the European Regional Development Fund. The project for the recovery of sodium chloride from coastal seawater via open pan crystallisation processes will be implemented over the next two years and aims to produce food grade sea salt.

Wilson Salt would like to thank DAERA, Local city councils including Causeway Coast and Glens and Belfast City Council, Invest NI and local established hospitality groups for their ongoing assistance in this project.
