RING SIZING GUIDE

Alright. Let's find you the perfect ring. You can measure your ring size in a number of ways:

Buying as a gift or surprise? If in doubt, our most popular sizes for women are Medium and Large.

If you're inbetween sizes, we recommend going for the larger one.

Above all, visiting a local jeweller to get yourself measured up is the best and most reliable method.

See our sizing chart below. Our ring sizes run from XS - XL:

Hotlips	UK	US	EU	Diameter mm
XS	G ^{1/2}	3 ^{3/4}	46	14.6
S	L	6	51	16.2
М	Ν	7	54	17.2
L	P	8	56	17.8
XL	R	9	59	18.8

MEASURE A RING YOU ALREADY OWN:

IMPORTANT: To use, you must print this page out at <u>100% – actual size</u>. If you print as 'scale to fit page' or 'shrink to fit page' the size guide below WILL NOT WORK!

1. Once this page is printed, measure the line below with a ruler and make sure it measures at 5cm before continuing. Then you're good to go!

←____ 5cm ───>

2. Find a ring that fits the finger you're buying for. Ideally you should use a thin band ring that lies flat against the paper.

3. Lay the ring down over each sizer circle below, starting with the smallest. This will allow you to see which of our sizes is closest to your ring. Keep in mind that you are measuring the **internal** diameter of the ring. The key is to still be able to see the outline of the sizer circle inside of the band. Think of each circle as a finger: it shouldn't disappear into the edge of your ring, but rather stay inside of it.

4. If your ring falls between two sizes, go for the larger one.
