Discover the complete Adigraf suite of perfectly compatible products.

Adigraf Water Soluble Block Printing inks are highly pigmented bold printing colours.

Made from high quality pigments, their intense colours offer a good covering for all manual relief printing techniques, including linoleum, block and woodcut printing. They are perfect for use on canvas, paper, overprinting and primed surfaces.

The inks are smooth and easy to apply on a printing press, with a roller or with printing blocks which ensures a sharp, uniform and homogenous contours.

The water soluble inks dry much faster than oil-based alternatives, are easy to use and can simply be cleaned using soap and water.

Adigraf Water Soluble inks, Oil Based inks, professional lino plates, lino cutters, ink rollers, printing plates and mediums offer professional artists and students alike an extended block printing suite of perfectly compatible products.
