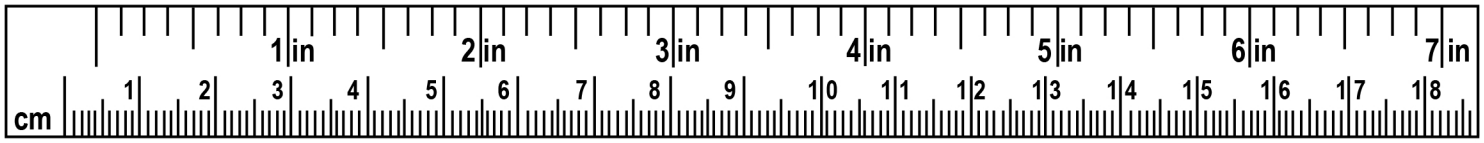
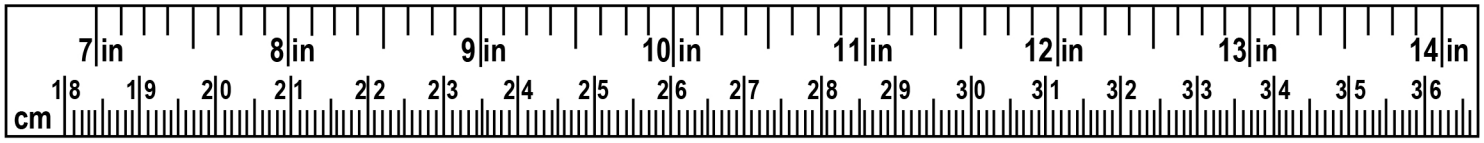
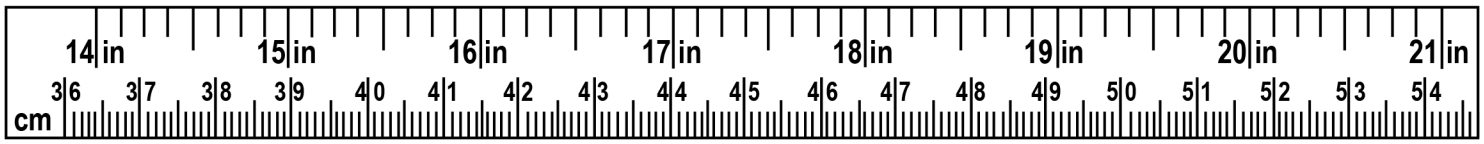
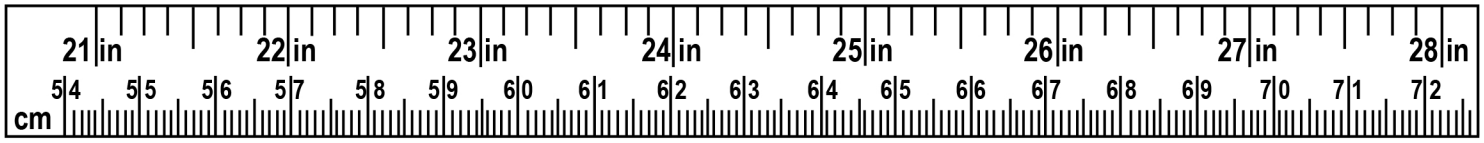
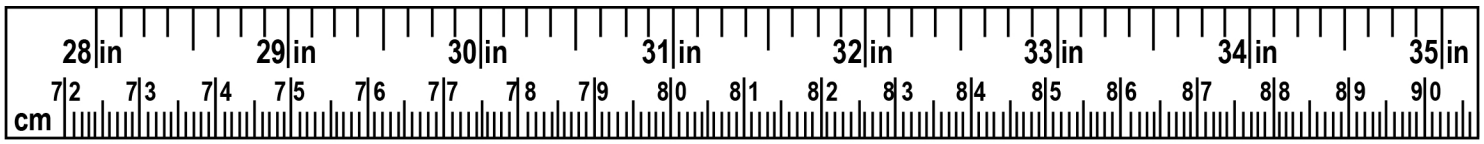
unique vintage printable measuring tape

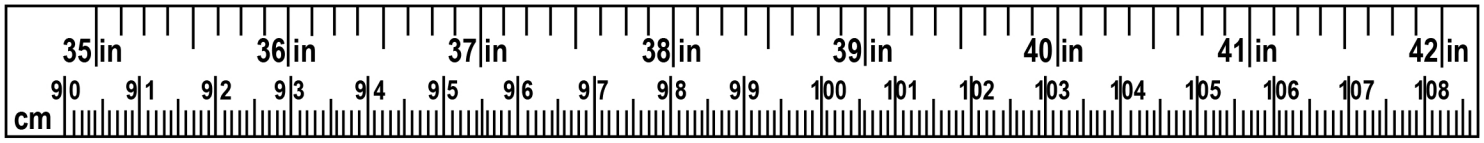
Please note if this page is not printed correctly, the units of measurement will not be accurate. This page should be printed on standard 8.5 x 11" paper. Do not select or change any default print margins. Do not select "scale/stretch to fit" or any other options for printing. If necessary, select to print "outside print margins."


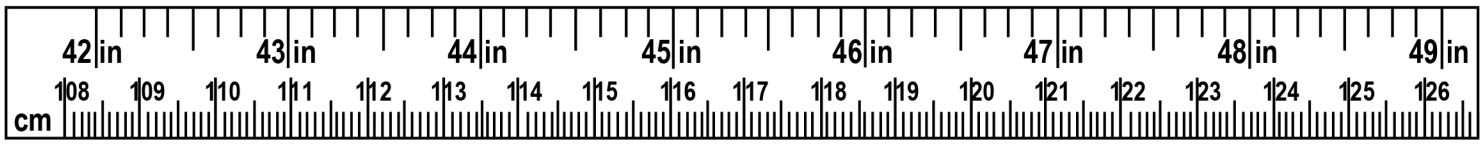












To assemble, cut along dotted lines. Line up and tape the whole number unit of measure on the right hand side with the corresppponding number on the left hand side. If you have a straight ruler, compare the printed measuring tape to it to ensure accuracy. Please visit unique-vintage.com/measure-yourself for tips on how to measure yourself!
