

Bench Fitness Sport Chalk

Description

Bench Fitness Sport Chalk is made with the highest quality Magnesium Carbonate available. Chalk is used in a number of different sporting disciplines from CrossFit to bodybuilding and on to powerlifting and strongman, even wall climbing and gymnastics. Bench Fitness Sport Chalk will ensure you have dry hands and a Strong grip in all situations.

Bench Fitness Sport Chalk prevents sweat from making your hands slippery, thus ensuring that the bar will stay in your hands all the way until lockout on that crucial deadlift. Whatever your sport of choice is, Bench Fitness Sport Chalk should be your first and only choice when it comes to holding on.
