

CERBERUS Power Bar

Description

DESIGNED FOR ELITE POWERLIFTING

As the name suggests, the Cerberus Power Bar is designed for Powerlifting. This barbell has a hard stiff feel with very little give. It has all the Powerlifting markings with centre knurl. It is engineered to meet the specifications of ALL Powerlifting Federations including the IPF Rules. With its micro collar we have been able to give you the biggest loadable sleeve on the market and still keep the overall length of the barbell within the rules. This is an extremely durable bar with bronze bushes, zinc shaft and sleeves and comes with our Cerberus Strength 3-year Functional Warranty*.

If you could only have one bar this would be it!
