

CORE 2 Tier 1.8M DB Rack

Description

Our Core range live up to their name, by being at the Core of what every gym needs.

Dumbbells are at the Core of many workouts due to their immense variability of use. Dumbbells also take up a lot of space to store. This is a problem our Core 2 Tier DB Rack solves. The Core 2 Tier DB rack comes on to sizes, 1.1m and 1.8m to suit a range of space requirements. The 1.8m Core 2 Tier DB Rack will store a full set of Bench Fitness Dumbbells from 2.5kg all the way up to 30kg.

Built Strong as only Bench Fitness can, the Core 2 Tier DB Rack is built to last and take whatever you can throw at it.

Store hex or round DBs
