

Description

Strength training can't be done without plates and plates take up a lot of room to store. The Bench Fitness CORE Plate Cart offers convenient storage that is suitable for all types of bumper plates. Designed to store sets of bumper plates in pairs based on weight. With its space saving design the Bench Fitness CORE Plate Cart is a perfect solution for storing plates in between weightlifting platforms or in gyms where space is at a premium.

Designed using our Built Strong philosophy, the Bench Fitness CORE Plate Cart is built using the strongest materials available to ensure longevity and durability.
