

CORE Roller Attachment

Description

Our Core range live up to their name, by being at the Core of what every gym needs.

In strength and conditioning training, not every movement needs to be done with heavy weights. The Bench Fitness Core Roller Attachment allows athletes great variability for single leg elevated movements. The Bench Fitness Core Roller Attachment fits any rack in our Core Rig and Rack range. High density soft touch foam makes the Core Roller Attachment comfortable to use.

Built Strong as only Bench Fitness can, the Core Roller Attachment will take whatever you can throw at it for years to come.

Features

- Textured durable vinyl covering
- Matt Black Powder Coat
- High Density Plastic to inner frame to protect rack from damage
- Fits all CORE Range Rigs and Racks
