

CORE Roller J Hooks

Description

Our Core range live up to their name, by being at the Core of what every gym needs.

Solid, Strong, Safe, these three words perfectly sum up the Bench Fitness Core Roller J-Hook. Build solid and strong to stand the test of time in the toughest environment. Lined with extremely high density, durable plastic and high density plastic roller wheel the Core Roller J-Hook is able to carry enormous weights while still protecting the knurling of your barbell and adding ease of adjustment when a barbell is off center without additional damage to the bar or j-hook. Compatible with all Bench Fitness Core racks and rigs, the Core Roller J-Hook will take your training to the next level.

Built Strong as only Bench Fitness can, the Core Roller J-Hook will take whatever you can throw at it for years to come.
